“RECOGNIZING THE NEED IS THE PRIMARY CONDITION FOR DESIGN.” CHARLES EAMES

ŚWIAT CLEONI

Drogi Czytelniku,

W Cleoni wierzymy, że prawdziwy luksus tkwi w wolności wyboru. Nasze oprawy oświetleniowe nie są gotowymi produktami, lecz punktem wyjścia do stworzenia własnej, niepowtarzalnej interpretacji światła. Każdy kształt, każdy wymiar, każde wykończenie można dostosować tak, by odzwierciedlało Twoją wizję i współgrało z charakterem przestrzeni.

Od wielu lat, jako polska marka, łączymy rzemiosło z nowoczesną technologią, tworząc oświetlenie, które łączy funkcjonalność z ponadczasowym designem. Nasze oprawy nie tylko rozświetlają wnętrza - one je definiują, kreując atmosferę, dzięki której każda przestrzeń staje się naprawdę wyjątkowa.

Zaufaj naszemu doświadczeniu i wkrocz w świat Cleoni, gdzie światło staje się osobiste.

Z wyrazami szacunku,

CLEONI

INTRODUCTION

Dear Reader,

At Cleoni, we believe that true luxury lies in the freedom of choice. Our luminaires are not ready-made objects, but a starting point to create your own unique expression of light. Every shape, every dimension, every finish can be tailored to reflect your vision and harmonize with the character of your space.

For many years, as a Polish brand, we have combined craftsmanship with modern technology, delivering lighting that unites functionality with timeless design.

Our fixtures do more than illuminate interiors they define them, creating atmospheres that make each space truly one of a kind.

Trust our expertise and step into the world of Cleoni, where light becomes personal.

All the best.

NATALIA WIETESKA

RIM COLLECTION

"Rim is a collection of lamps inspired by simple and graphical design. The hoop, or "rim", is a single element that forms a bold, clean line. The design manifesto being; to create products whose functions result from the form, keeping it minimal and unfussy.

The Rim collection consists of a wall lamp, the assembly of which does not require preparing electrical cables in the wall - it is simply hung and powered from the sockets. The pendant lamp, which due to its metal tube system, allows for a quick and easy height adjustments. There is also a desk lamp, in which the cable, if it is too long, can be wrapped around the vertical arm."

.....

PILL COLLECTION

"The Pill lamp collection are harmonious in shape and proportion. Their simplicity and adaptability means they can be placed in very different interiors, and used in mixed groups or singularly.

The wall lamp creates a typical graphic character - with few constituent parts. The cabling solution, running through the central tube, is an aesthetically interesting feature that is deliberately exposed to enforce the reductive quality of the design. The hanging luminaire is a symmetrical composition of two 'tablets' - one for illumination, with a glass shade, the other - a contrasting solid metal element. The lamp has a timeless look, but is also a powerful light source, so it can be used over a table, island or bar."
