NEW COLLECTION

L'ODYSSÉE

The Fantastic Odyssey draws inspiration from the world of fairytales and enchanted forests. A universe inhabited by magical creatures: owls guarding secrets, dainty fawns, giant mushrooms... each figure evokes the magic of a hidden world that reveals itself only to those who still dare to dream. Fairy-tale escapism, halfway between nature and fantasy.

SANTA EXPRESS

That imaginary world of travel, explorations and distant discoveries is the inspiration here. Old maps, compasses, trains, majestic ships, and propeller planes... All symbols that evoke adventure and the promise of distant horizons. All set against the backdrop of winter enchantment, transforming each departure into a dazzling and magical tale.

NEW COLLECTION

ROYAUME DES GLACES

Inspiration comes from the lands of the Far North, where snow becomes a setting and ice, a palace. Each animal embodies the fragile poetry of these frozen lands. Soft silhouettes, gentle expressions, and velvety textures inspire a tender and protective sense of wonder. Here, nature becomes a story, and every creature seems to step out of a snow globe, perfectly frozen in wintry glory, yet ready to come to life the moment they meet a dreamy gaze.

NORDIKA

asrealistica as a natural one

Who doesn't love a fabulous Christmas tree? And yet, it takes between 30 and 40 years for a natural conifer to reach 12m in height. As we want to avoid deforestation halting the felling of these majestic trees, we invented NORDIKA.

Pre-illuminated with a slowglow effect, easy to assemble and store, they are perfect replicas of their natural version, both in their design and incredibly realistic appearance - as true to life as it gets.

Eco-friendly design of our Nordika product line

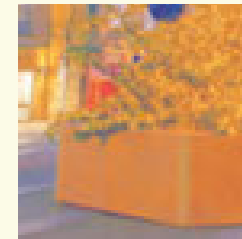

Our environmental approach is based on a simple principle: to save at least as much carbon as we generate. We do this by only using biocompatible materials, which we recycle at the end of their lifespan.

Optional treetop

Hyper realistic
Christmas tree branches

Wood effect
stand available

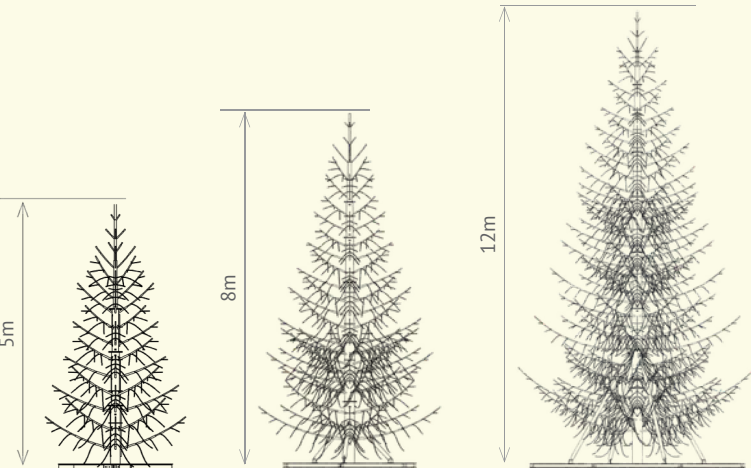

NORDIKA

the Christmas tradition

The perfect regularity of the branches, the realistic high-quality nishes and a majestic size make our conifers a festive must. You can customise your Nordika every year for a unique look: hang Christmas baubles on its branches, add a set of lights, or even set it on a wooden base.

NAME	Ø	◆	↘	⚙	FLASHS	LED	NBR OF ELEMENTS	REFERENCES
Sapin Nordika - PM	3,56 m	5 m	245 W	263 kg	☀	2 976 (1 488 steady + 1 488 with slowglow effect)	46	GX081LW-2
Sapin Nordika - MM	4,70 m	8 m	770 W	1 112 kg	☀	8 664 (4 332 steady + 4 332 with slowglow effect)	107	GX082LW
Sapin Nordika - GM	5,90 m	12 m	1 870 W	2 750 kg	☀	21 048 (10 524 steady + 10 524 with slowglow effect)	194	GX083LW

CELEBRATING 10 YEARS

To mark its tenth anniversary, our Christmas tree has undergone a transformation: a redesigned branch structure for a more harmonious silhouette, a deeper green hue, and an even more realistic look. An evolution born from our constant drive to innovate, offering an even more magical, fuller, and more radiant tree than ever before.

FREE STANDING NO NEED TO SECURE WITH WIRES

The Nordika is built on a robust internal framework that ensures its stability without the need for external cables or wires for balance.

TOTALY SAFE 24V

100% secure thanks to its 24V voltage across the entire tree.

INDOOR &OUTDOOR USE

Thanks to its weather-resistant structure and durable materials, it withstands outdoor conditions perfectly while remaining elegant and safe indoors.

PVC FREE

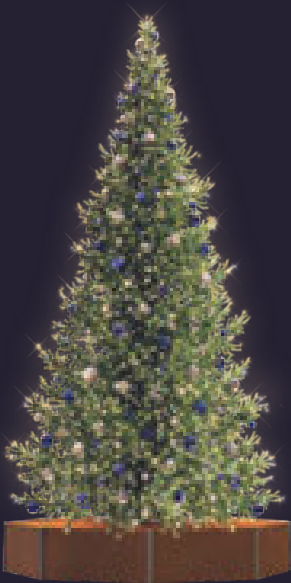

The recyclable polyethylene branches provide a natural appearance and an eco-friendly approach. This innovative material perfectly mimics the look of real branches while being durable and environmentally friendly.

PRE-LIGHTED WITH 100% LED SLOWGLOW EFFECT

No need to install string lights anymore: the tree comes pre-decorated and ready to shine.

CAN BE TOTALLY DISMANTLED

ACCESSORIES

for NORDIKA DECORATIVE BAUBLES KIT

Each kit features 52 baubles in the same colour (M1/B1 category-reproof) - 50% shiny / 50% satiny

ARTY

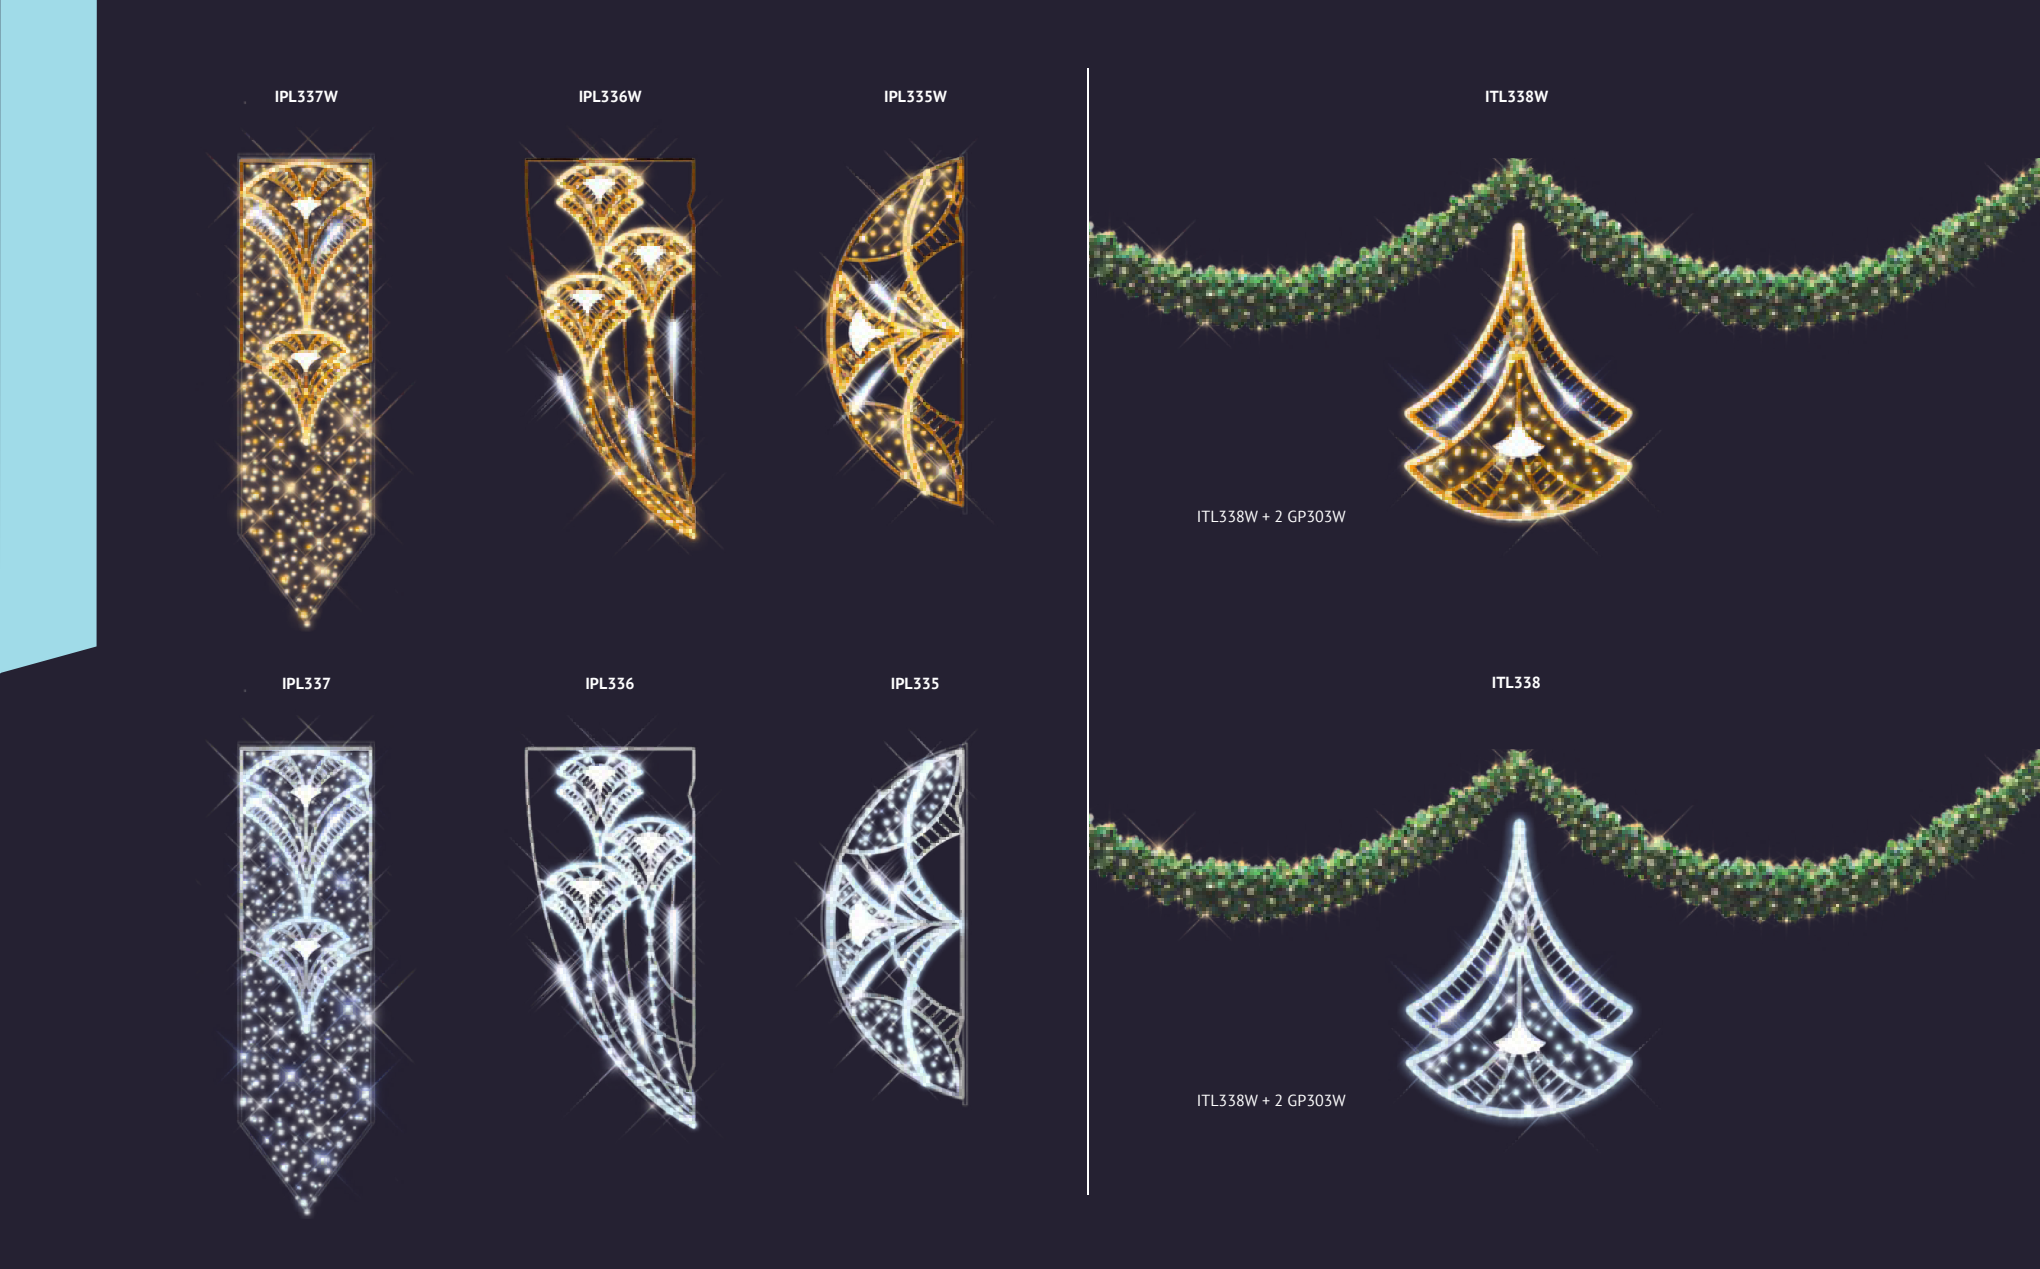

The ARTY collection is inspired by the refinement and purity of the Art Deco artistic movement.

We have elegantly mixed the geometric lines of this timeless artistic style with the traditional symbols of Christmas.

Flashes, diamond shapes and streamlined curves are accented with light, enabling us to create an extremely elegant and dynamic decoration that is equally beautiful day and night in your streets.

Grace

The GRACE collection is inspired by Baroque style. Born in Italy in the 17th century, this artistic movement is characterised by its majestic ornamentation and arabesques, symbols that we have chosen to combine with more pared-back contemporary lines. An essential element in Baroque style, the chandelier is available in several versions that you will find in these pages.

Precious

The Precious collection is inspired by the world of jewellery and fashion.

The design's lines echo those of items of jewellery: long necklaces, pendants and pearls are all refined references found in this theme.

A symbol of Christmas par excellence, the bow evokes connection, sharing and the joy of gifting, imposing its precious and timeless style.

COSY

Close your eyes and breathe in the delicious scent of cinnamon that fills the alleyways of the Christmas market. Pine green, red and gold are the key colours in this collection, which has a warm, traditional and gourmand feel. Lanterns of every variety are an integral part of this Cosy collection, an ode to festive winter traditions with family and friends.

Cristal

The Cristal collection brings a breath of freshness to your polar decoration. Delicate arabesques and more decorative lines warm up this glacial world. New snowflakes with softer designs in warm shades, mixing pure white and warm white, make up this range inspired by the nomadic peoples of the Far North.

SOLAR RANGE

varied and adaptable decorations work with solar energy

Thanks to our new solar-powered rechargeable battery, you can combine lighting with energy efficiency.

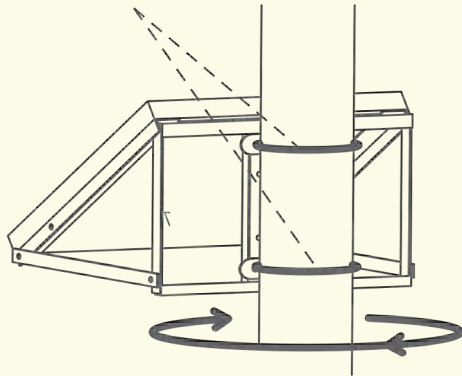

Once your decor is in place, position the solar box on top of it facing the right way, set your switch-on and switch-off times and enjoy your lighted decorations.

Technical details:

- 8 to 10 hours of recharging with optimal sunlight for 7 hours of lighting.
- your lights can be programmed to operate for 5, 6 or 7 hours.

PIXSOL2

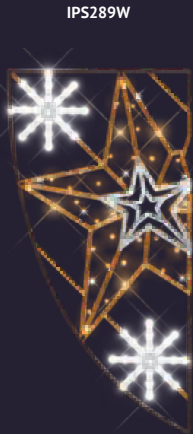

20W pannel power
7,2W power
output

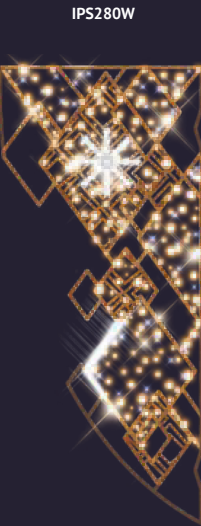

When you set it up, make sure it is facing the right way to get the most sun during the day. These decorations are equipped only with 24V LED string lights.

PLAYMAGIC

Play in augmented reality!

Allowing audiences to do things like take a photo with Father Christmas or play with Charlie the Unicorn, our augmented reality apps add virtual characters into the real world, leaving the public laughing and amazed.

Children and adults can easily take part in the fun using a smartphone enjoying an unforgettable experience that transforms reality into a unique performance.

How does it work?

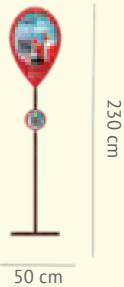

For the public, the idea is simple: when users approach the Play Magic banner, the app they have pre-installed on their phone automatically unlocks to give them access to the games. They can then share the experience on their social media pages. The public app features your branding and a link to your website or social media.

For the city: the games app has a subscription model valid while the illuminations are up, with games updated each year. Apart from this, all you need to do is install the banner near the illuminations to tell the public they can enjoy a free game on their phone in the location. There is no need for any connection. The app's success also depends on you advertising it on displays in your town/city and on your social media pages. We can assist you in setting up your communications (Réf. ARCOM below).

Reference	Description
AR001	3 games pack (chosen from the 7 existing games) + 1 Totem
AR002	5 games pack (chosen from the 7 existing games) + 1 Totem
ARTOT02	1 additional Totem
ARCOM	Augmented Reality Communications Pack (non-printed poster, web banner and smartphone-format image).

2D & 3D LETTER

StandOut! Showcase your identity with our XXL Lettering

Place them wherever you like—on roundabouts, in front of your town hall, or near any iconic landmark in your community.

We offer various options for volume, size, color, and weighted base:

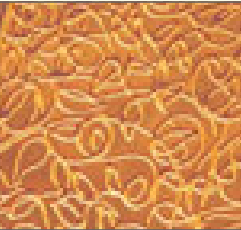

Our 2D letters come in Recyprint gold and white, made from recycled plastic bottles and fully recyclable. They are available in heights of 1.4m or 2m. The lightweight, discreet aluminum frame is crafted from recycled material and designed to hold your weighted base.

This year, we're introducing 3D letters with added depth. Covered in Flexiprint—our new exible, recyclable material made from recycled plastic—these letters feature white front and back faces with gold-colored edges.

Two sizes are available:

- 1.8m with a depth of 60cm
 - 1.4m with a depth of 40cm
- These 3D letters also come with a black lacquered base that serves as a weighted support, offering a turnkey, ready-to-install lettering solution.

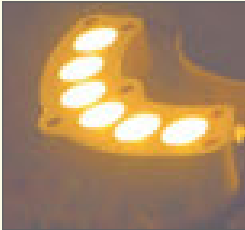

All our lettering includes warm white spotlights, so your name will shine at nightfall.

«SCINTILLANCE» CURTAIN

with vertical animation

DYNAMIC ANIMATION + FLASHS ON END OF TWIGS

◆	◆	LED	FLASH	⚡	📏	□
2 m	7 m	420	80	70	10	ECOX216W

PRODUCT DETAILS

Created as part of the Scintillance des Champs Élysées project in 2014, this animated curtain combines a random scrolling effect across most of the strands, ending with a section of flashes. Ideal for tall trees, it can also be used on building facades. A timeless 'classic' from our catalogue, for dynamic and elegant lighting.

PRODUCT DETAILS

New for 2026, our stalactite is a combination of a braid and a classic stalactite, creating a new decorative light festoon. Connectable end-to-end, it can illuminate large lengths either across streets or suspended. An alternative to our TSL braids. There is also the option of inserting small decorative elements using our Octopus system.

*20° focal lenght - Weight: 3.3 kg.

Throw ratio (distance/image size):
- 3 m for 1,10 m
- 5 m for 1,80 m
- 10 m for 3,60m

PRODUCT DETAILS

Rotating function with 3 speeds and fixed position. Includes 4 gobo lenses (Blue Stars, White Snowflakes, Santa Claus – Sleigh, Pink October). Supplied in a metal case for storage and transport.

ACCESSORIES
& technical solutions

OUR STEERING SOLUTIONS

It's time to step up the smart city movement to save more energy.

Eco-designed equipment that is sustainable and smart energy management are part of any global eco-friendly urban policy. Blachere Illumination is committed to working alongside cities and developing innovative solutions to protect our planet and our future.

With our lighting management systems, you can remotely manage lighting with a single click. Whether it's with **our range of timer boxes or our MASTER+SAVER global control system on the next page.**

This makes it easier for the city to manage its electricity resources in line with its ecological and sustainable development aspirations.

ON/OFF BOX WITH REMOTE CONTROL

When you fit your set with this remote control switch, you can install and connect your set to the public lighting system in advance and switch it on manually with the remote control on the day of the lighting show, without having to interact with the box installed on lighting set.

Box ref: **TERUP**
Remote control ref: **TERUP-C** (can control multiple TERUP boxes)

- SIMPLE **ON/OFF** CONTROL
- WORK **VIA REMOTE CONTROL**

TEMPO 2 BOX UNIVERSAL & 7-HR PROGRAMMABLE

When you fit your set with the TEMPO2 box, you can disconnect it from the public lighting network. Sets are switched off automatically after 7 hours, from the moment the street lighting switched on. By connecting a TERUP ON/OFF box upstream of this box, you can trigger the timer using the remote control.

Compatible with Octoplus and/or **any other decor.**
Box ref : **TEMPO2**

- AUTOMATIC **7-HOUR** TIME DELAY
- CONTROL IS **ON THE BOX**

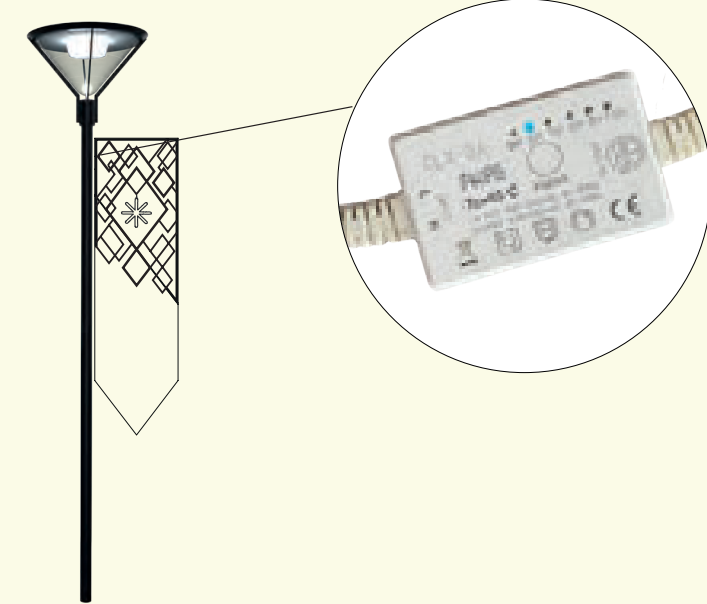

TEMPO+ BOX PROGRAMMABLE FROM 5 TO 10 HRS

When you fit your set with the TEMPO+ box, you can disconnect it from the public lighting network and can adjust the lighting times you want and programme the lights to go out. A long press means you can select 5, 6, 7, 8, 9 or 10 hours of illumination followed by automatic switchoff. By connecting a TERUP ON/OFF box upstream of this box, you can trigger the timer with the remote control. Octoplus compatible.

Box ref : **TEMPO+**

- TIME DELAY SELECTABLE **BETWEEN 5 AND 10 HOURS**
- CONTROL IS **ON THE BOX**

MASTER+SAVER SYSTEM

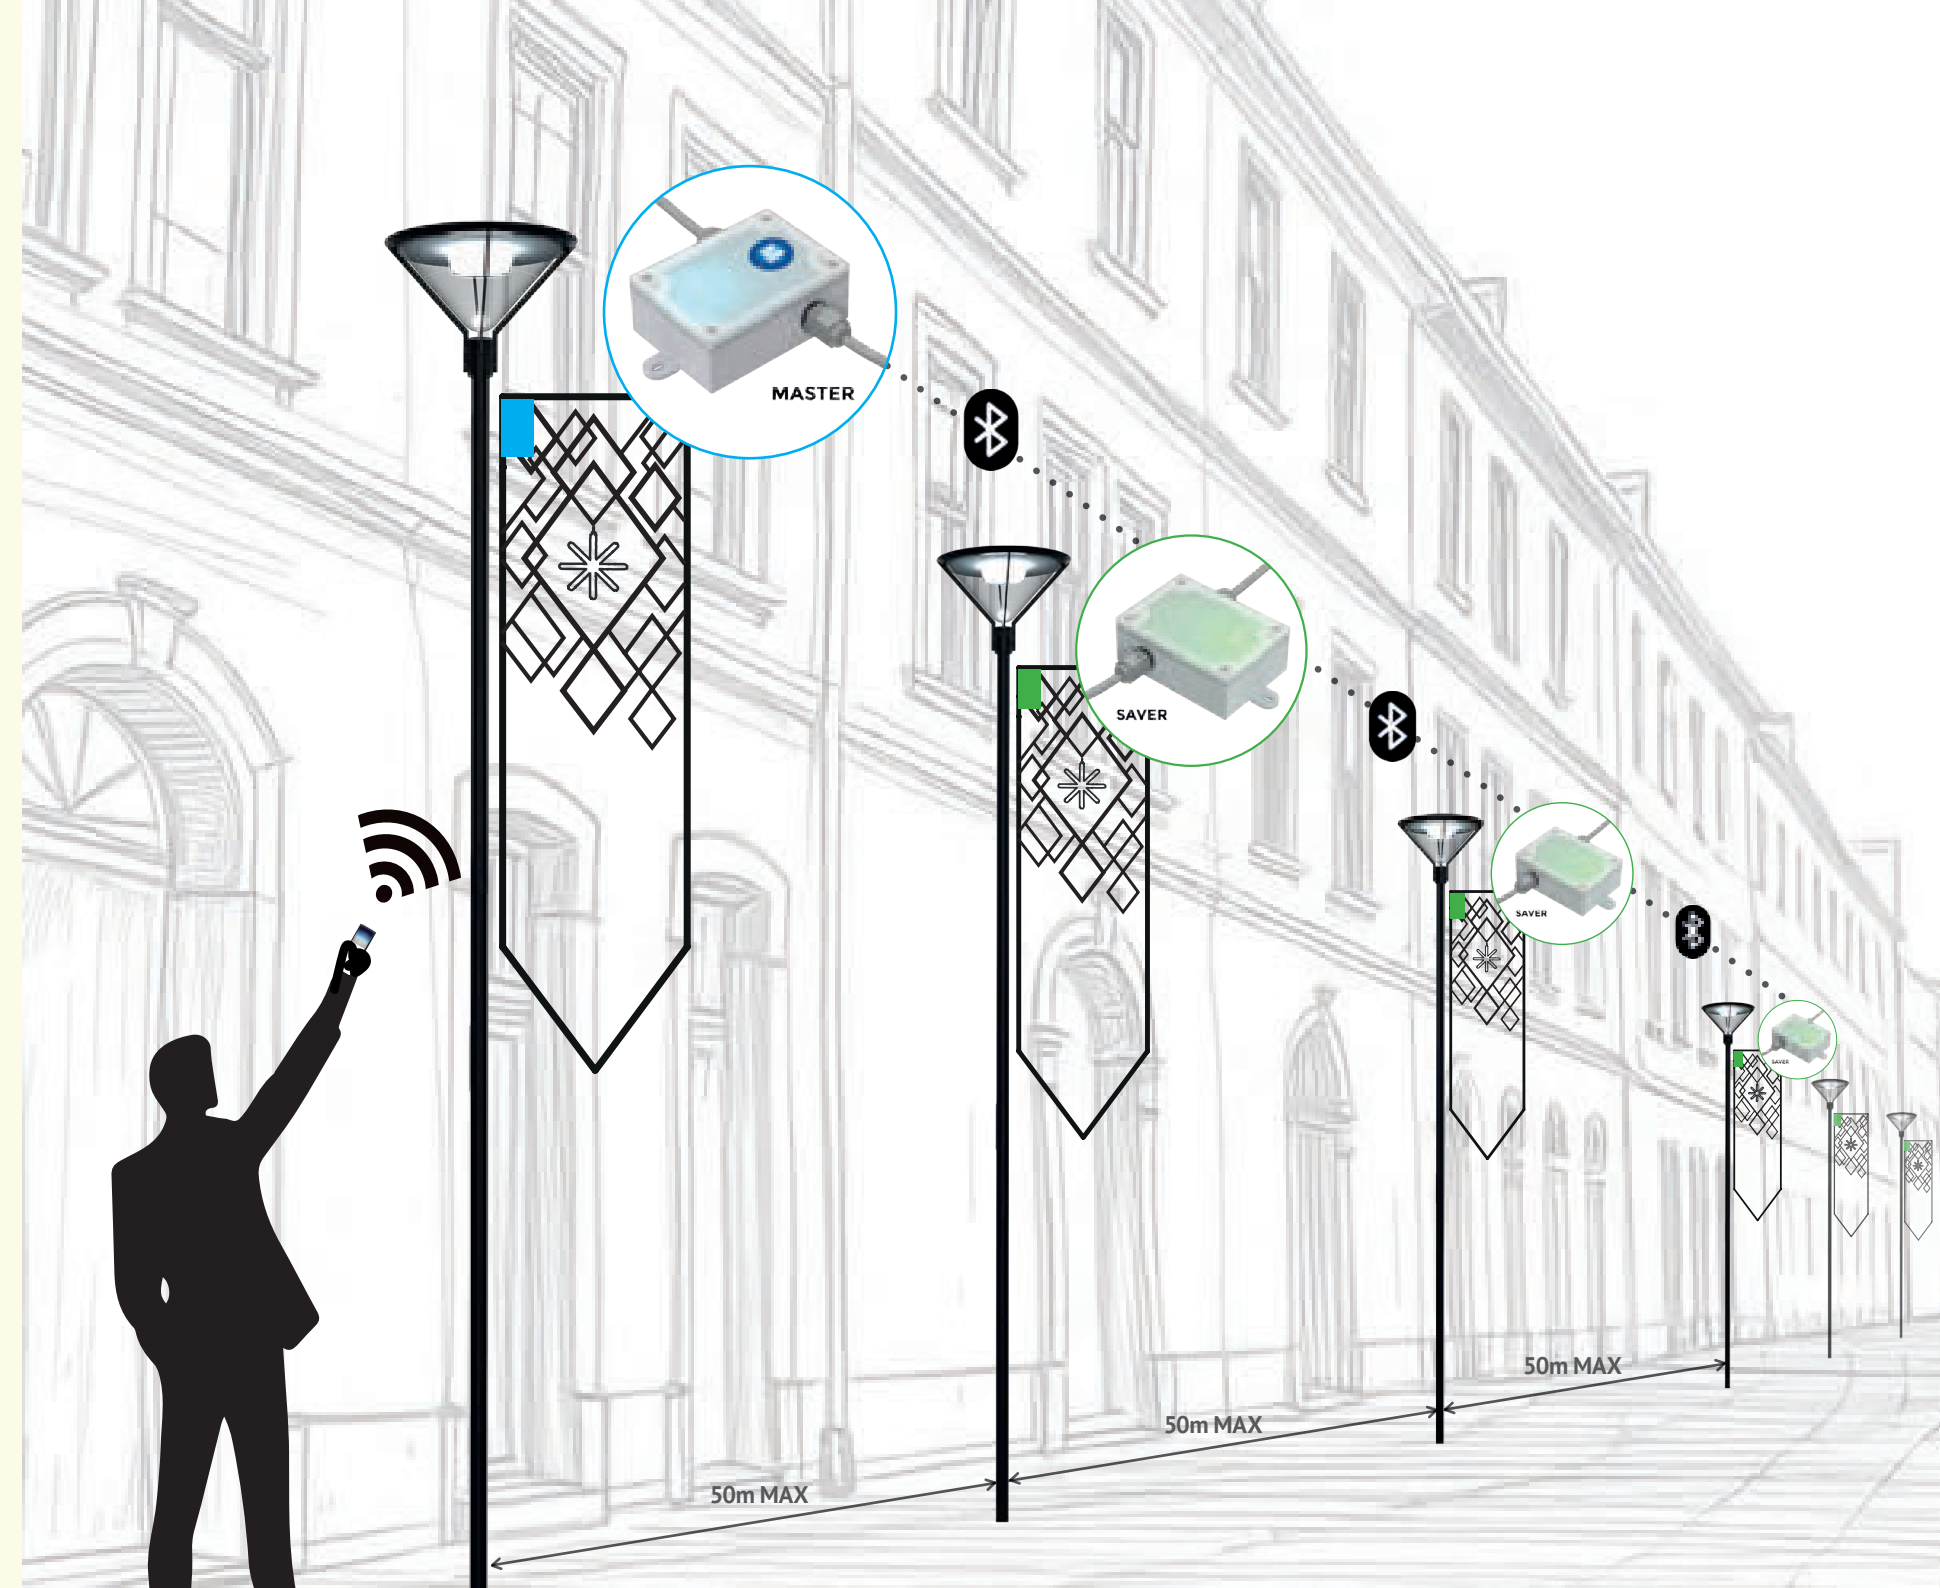

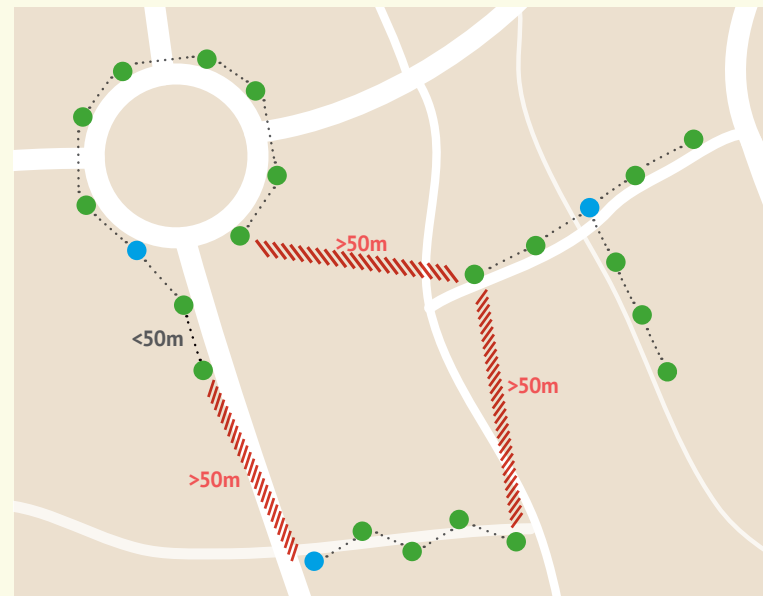

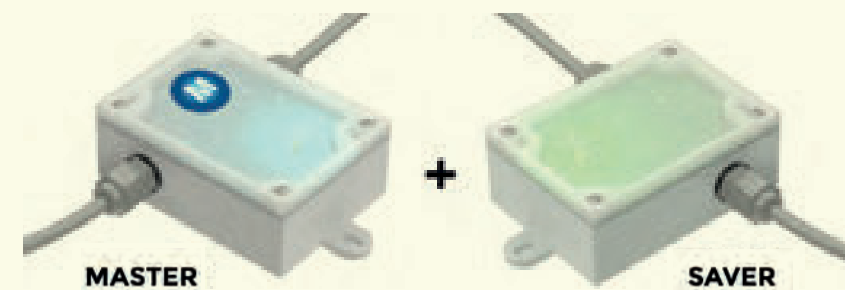

Fit your light displays with SAVER boxes. One of the lighting sets will be «group leader» and will be equipped with a MASTER box. The MASTER box can be programmed with the switch-on times/days and will communicate the same information to all the SAVERS via Bluetooth.

The distance between SAVER and MASTER must not exceed 50m.

If two sets are more than 50m apart, you will need to make a new group with a new MASTER box. You also need to be close to the MASTER, with your phone in your hand and the application open, to be able to control your sets.

Lighting sets can be pre-programmed in our workshops or programmed by the customer themselves using the dedicated mobile application.

- SUPER EASY CONTROL VIA **MOBILE** APPLICATION
- CREATION OF **SET GROUPS**
- PROGRAMMING OF **SWITCH-ON DAYS AND TIMES**
- MANAGEMENT OF **SWITCH-OFF TIMES FOR ENERGY SAVINGS**
- **SECURE W - DATA PROTECTION**

OCTOPLUS by Blachere®

exclusive

Octoplus is the connector that enables fast and multiple connection between our decorations and most of our range of string lights. Each item that is marked “Octoplus”

Connector 230V Octoplus by Blachere®
Protection rating IP67, according the European standard EN60529 on the degree of protection provided by enclosures.

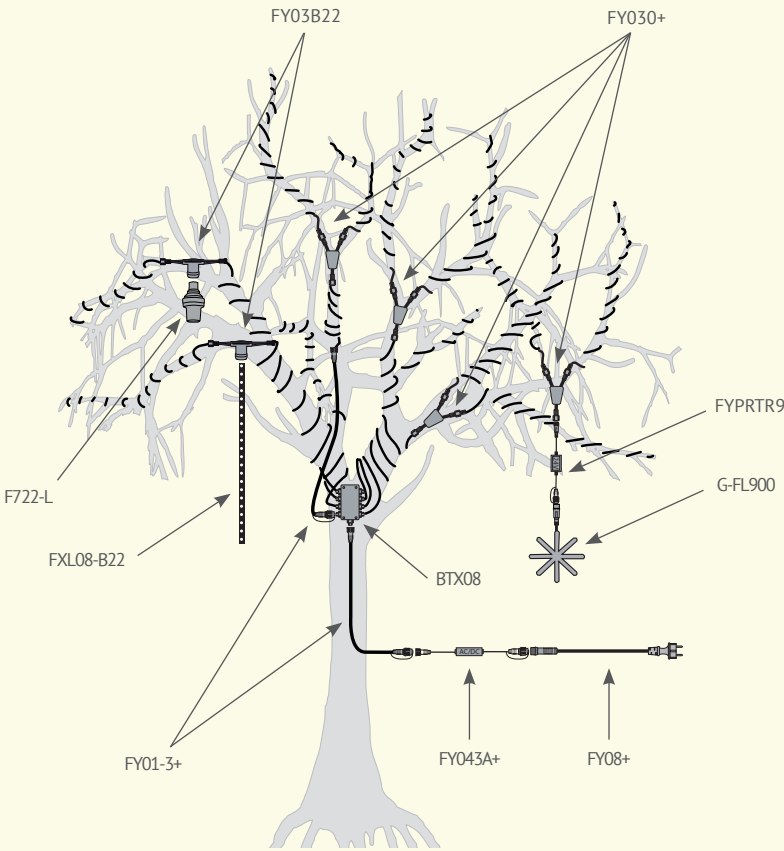

Connector 24V Octoplus by Blachere®
Protection rating IP67, according the European standard EN60529 on the degree of protection provided by enclosures.

Special connector RGBWW 12V
Protection rating IP67, according the European standard EN60529 on the degree of protection provided by enclosures.

can therefore be connected to another “Octoplus” item. This means the combination of items is infinite just by simplifying the electrical connections.

SOLAR ACCESSORIES

A new roundabout to decorate but no power supply?

Or looking to illuminate a street on your own with zero carbon emissions?

Choose our solar solutions.

Discreet panels, with an integrated autonomous and programmable system (switch-on and switch-off times).

Adapted light decorations, 24V string lights, and more. We offer you a **complete range that is 100% self-powered.**

All you need is sunshine!

Consult our advisory teams for a personalised analysis!

SOLAR KIT SELF-POWERED

KITSOL

- Kit containing a solar panel with high-performance monocrystalline cells.
- Gel batteries for 2400 cycles with discharge
- Power regulator and discharge protection
- 24V or 230V output easily switched by rotary selector
- Can be fixed to the floor

PRODUCT DETAILS

- 50% battery consumption after 12 hours
- Low-power prevents battery damage.
- Easy to move thanks to flexible rubber wheels with high abrasion resistance
- Maintenance-free and easy to install

SOLAR KIT POLE

PIXSOL2

- 20W panel power
- 7.2W power output
- DAILY PROGRAMMER: selection of the days and times lighting set is switched on
- 8 to 10 hours of sunshine required for 7 hours of lighting set operation

COMPATIBLE PRODUCTS
