5 YEAR MANUFACTURER'S WARRANTY

All LUXAR brand products come with a standard five year warranty.

Our company

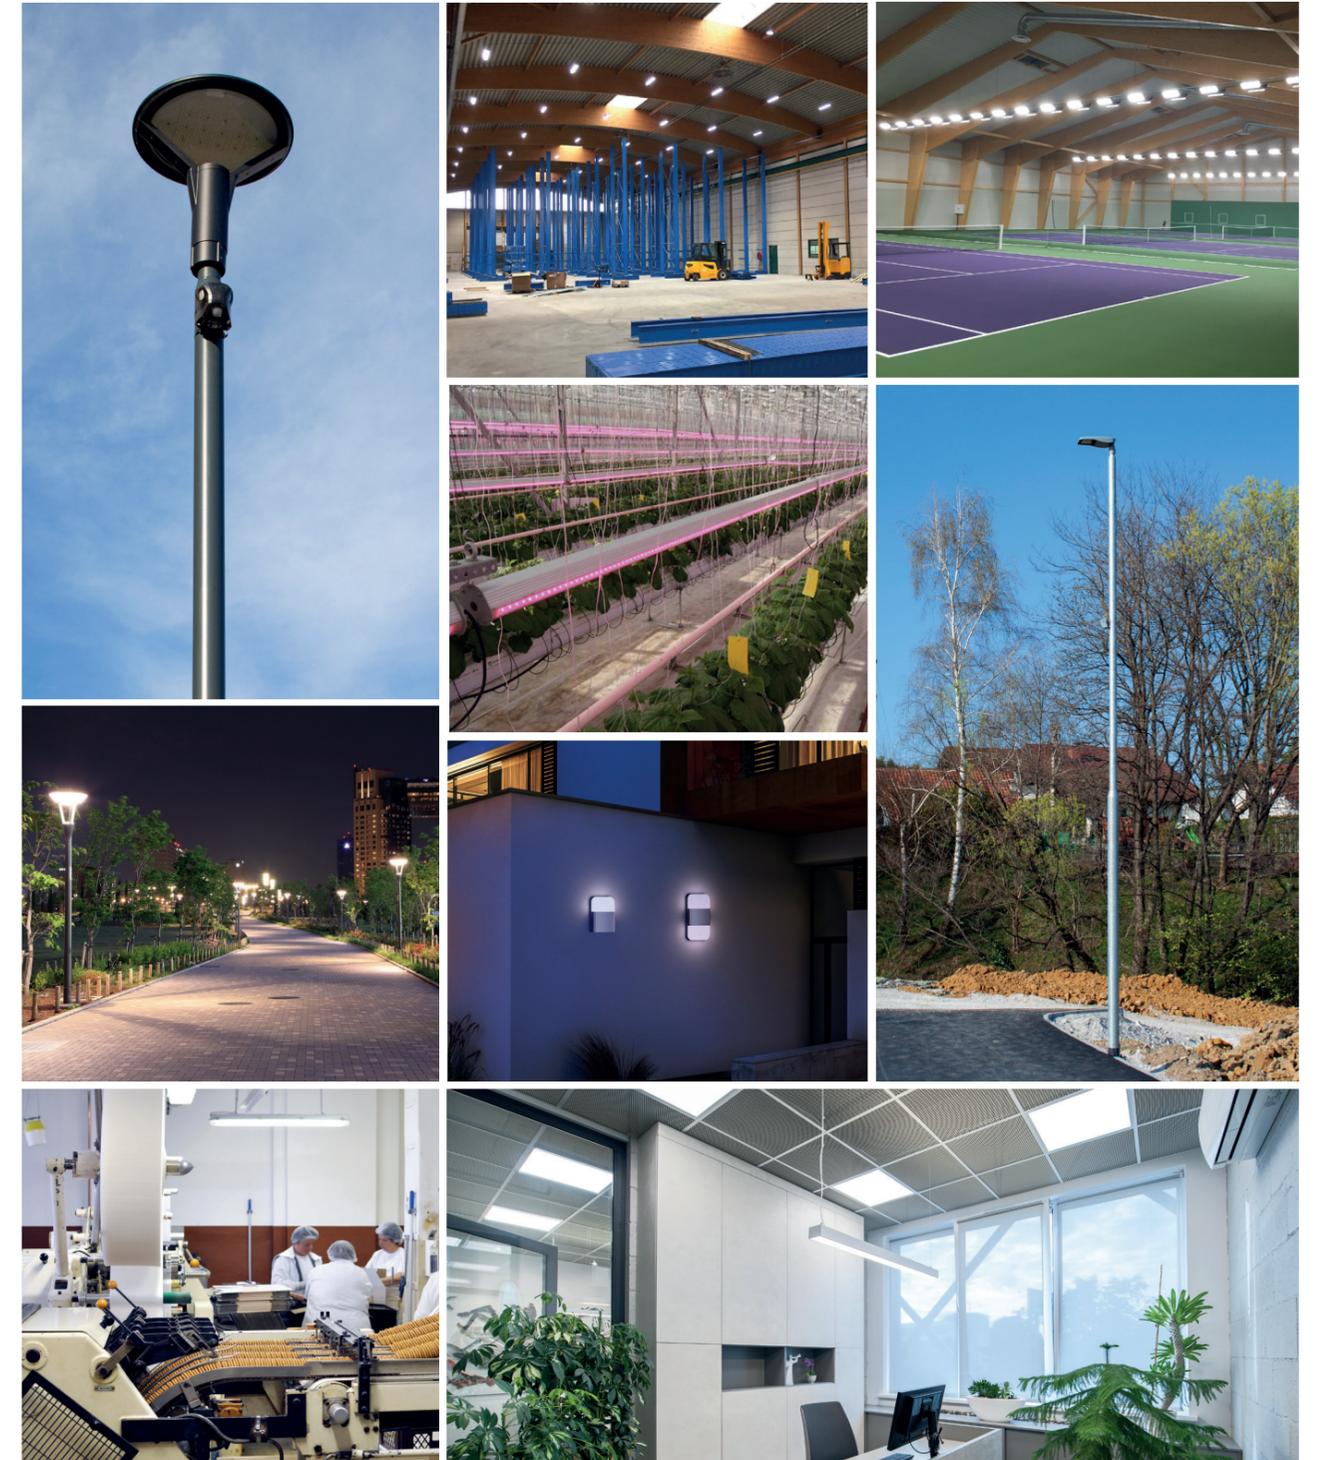

LUXAR is an official premium brand of company ETT Lighting d.o.o. which is one of the leading companies in the field of lighting - planning, manufacturing and installation of luminaires. ETT Lighting is a company with a long tradition for more than 30 years in the field of lighting. We cooperate with established international companies for lighting equipment. You will find only the best quality materials in our products with high energy efficiency and a long life span.

With our experience and expertise, we are trusted business partner for a wide range of companies at home and abroad. We were the first in Slovenia to get the certificate for DALI protocol, with which we can achieve even higher energy savings and a creative lightning controls. The goal of ETT Lighting is to remain at the top with our expertise for our business partners, and to work on new, more efficient and eco-friendlier technologies. The results of our countless experiences, which we gained on complex projects, is one of our strong points for our business partners. With a modern business organization, professional qualifications, technical equipment and experience of more than 30 years, we gained a vast circle of business partners.

SLOVENIAN OEM LIGHTING MANUFACTURER

Our luminaires enrich your investment with fashionable, smart and modular urban lighting for YOUR city.

 Recyclable materials

 All LUXAR products are within the WEEE (Waste from Electrical and Electronic Equipment) directive.

CRI Color rendering index

CRI - is the measuring unit used to determine the ability of a light source to reveal the colors of various objects faithfully in comparison with the ideal or natural light source. High CRI lights are needed in those applications where color reproduction is important, such as textile and food sector light.

URBAN & STREET LIGHTS

LED street light is the best alternative for traditional street and area lighting with quick payback and improved performance.

This luminaires are easy to install, high efficiency with uniform lighting distribution and reasonable cost.

Saturn

Saturn brings architectural style to the project, it can be used for urban area or street applications. The design brings a desired organic look into the urban environment.

Professional optics provide an excellent effect, managing glare while providing high levels of visibility.

Made of Aluminum Alloy.

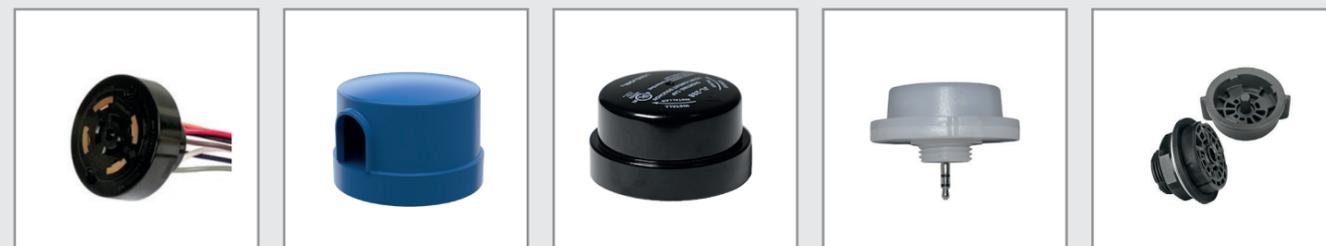

Key features

- LED Post Top Light / Garden Light
- Contemporary, architectural design, elegant appearance
- Smooth housing without any screws exposed
- Lumen packages ranging from 4800 - 12000lm
- Professional optics provide excellent glare management, while providing high level of visibility
- IK08, IP66 rated
- Ø60mm post top mount
- Area, site and pedestrian scale applications
- Dimming control signal DALI, ready2mains, chronoSTEP

Applications

- Residential area
- Private garden/ Parks
- River bank
- Public square
- Walkway / Path way

Accessories

NEMA Socket
ANSI C136.41-2013 Dimming Receptacles
Code: NS-A00-02(3 Pin)
Code: NS-A00-03(5Pin)

Mounting Option

Lotus

The aesthetics of the city is inseparable from lighting, Lotus satisfied the trend of urban differentiation with smooth curvature, which effectively prevents the accumulation of dust and leaves, not only creates a neat atmosphere, but also provides excellent heat dissipation.

Made of Die Casting Aluminum.

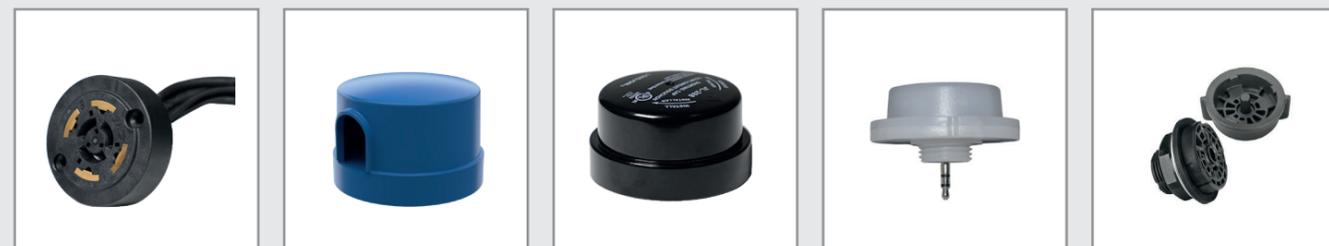

Key features

- LED Post Top Light / Garden Light
- Contemporary, architectural design, elegant appearance
- Smooth housing without any screws exposed
- Professional optics provide excellent glare management, while providing high level of visibility
- IK08, IP66 Rated
- Ø60mm post top mount

LOTUS	450	526	340	Ø60

Mounting Option

EN Prime

Modern linear optics with excellent performance, LED street lighting using state-of-the-art technology from the finest materials resistant to high temperature PMMA HT.

Housing made of aluminum alloy, designed as a heatsink for LED light source. Housing is powder coated in RAL 9022.

Optics increase the brightness and creates a perfect and highly efficient beam of light and directs it to the surface it illuminates.

High efficiency, over 90%.

Made under ENEC certificate.

Key features

- Programmable chronoSTEP: times and levels according to calculated midnight
- Constant light output function (CLO)
- Configurable via ready2mains, DALI, NFC
- Low-temperature start feature (-40 to +50°C temperature range)
- IK09, IP66 Rated
- Protective features (overtemperature, short-circuit, overload, no-load, input voltage range, reduced surge amplification)

Applications

- Parking lots
- Traffic routes
- Residential areas
- Plazas
- Parking lot areas

Accessories

CitySense Lite
Zhaga-D4i Motion Sensor, Street Lighting Solution.

CitySense Plus
Motion Detection Sensor, Wireless Communication and lighting control.

CityManager
Web-based Smart City software platform for remote monitoring, management, and control of the entire lighting infrastructure.

Twilight's IoT Gateway
Network interface device

ZHAGA Receptacles
Compliant with Zhaga Book 18. Code: ZG-A00-01

Klobuk

KLOBUK is a modern street luminaire with sleek lines that form a classic shape luminaire mostly suitable for illuminating road crossings. With its European design, the luminaire will seamlessly blend in the environments of old and new cities.

Made of Aluminum Alloy.

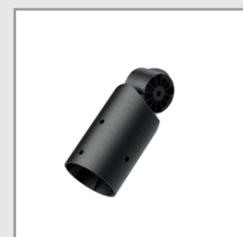

Key features

- Super smooth design, one size for 60W, 90W, 120W, 150W
- High output lumen efficiency, up to 140lm/W
- Strong anti-corrosion performance
- E- painting + Powder coating process
- Built in Motion Sensor is optional
- High quality ensured by various kinds of reliability tests
- IP66, 10KV SPD. (Class I, Class II optional)
- Multiple mounting options: Side entry, Post Top and Suspension
- Ø60mm spigot is available

Applications

- Walkway and narrow road
- Urban roadway lighting
- Park lighting
- Outdoor area lighting
- Billboard lighting
- Outdoor sports
- Stadium

Accessories

Pole mount spigot
ADC12 materials, ±15° tilt adjustable, for dia. 60mm pole.
Code: SP-R23-01

Wall mount adaptor
SPCC materials with outdoor powder coating.
Code: SP-R03-05

Corner mount adaptor
SPCC materials with outdoor powder coating.
Code: SP-R19-02

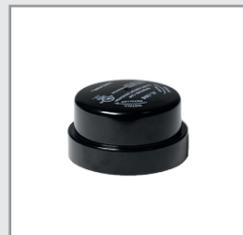

T shape pole mount adaptor
SPCC materials, for dia.60 pole.
Code: SP-R03-06

L shape pole mount adaptor
SPCC materials, for dia.60mm pole.
Code: SP-R19-01

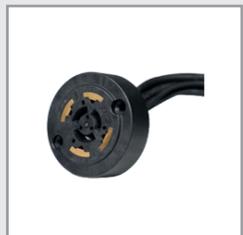

Suspension Bracket
SPCC materials with outdoor powder coating.
Code: BC-R23-01

Shorting cap
Cover NEMA socket when it is not used.
Code: NS-A00-01

Photocell control
ON-OFF automatically according to day light.
Code: PS-A00-01

NEMA socket
3pin/ 5pin /7pin are optional.
Code: NS-A00-02(for 3pin)
Code: NS-A00-03(for 5pin)

Cyper

Cyper LED Street Light has a smooth and slender design shape, which is more in line with the road design style. Professional optical lens provide an excellent effect, managing glare while providing high levels of visibility.

Made of Aluminum Alloy.

Slim Design

Key features

- Easy installation
- High output lumen efficiency up to 140lm/W
- The housing is made of 100% aluminum alloy (ADC12)
- AKZO powder coating
- Easy maintenance
- ±15° adjustable

Applications

- Parking lots
- Traffic routes
- Residential areas
- Plazas

Accessories

Tanos

TANOS follows the trend of urban differentiation with smooth curvature, creates a tidy impression, and provides excellent heat dissipation. Clear and full rounded PC cover helps to eliminate blind spots caused by lamp arms, bring safety and attractiveness to the urban space.

Made of Aluminum Alloy.

Key features

- LED Post Top Light / Garden Light
- Contemporary, architectural design, elegant appearance
- Color Black RAL 9017
- 100-240V 50/60Hz
- Professional optic provide an excellent effect, managing glare while provides high level of visibility
- IK09, IP66 Rated
- Ø60mm post top mount available
- Area, site and pedestrian scale applications

Applications

Sirius

Up to **200lm/W**

Sirius is a new Solar LED street light with modern and slim design. Street light incorporates mono-crystalline photovoltaic solar panel, high efficiency of 200lm/W, which makes the product very versatile, with huge advantages for areas with low quality mains infrastructure or without mains infrastructure.

Made of Aluminum Alloy.

Key features

- Good design, low weight, easier installation
- System efficiency up to 200lm/w with competitive price
- The Controller has built in Motion Sensor and timer dimming function
- LiFePO4 battery is with longer lifetime, charge for 8 hours which can work continuously for 3 days
- IP65 & IK08 double protection
- Mono-crystalline photovoltaic with a higher conversion efficiency
- Adjustable angle
- Different mounting options

Applications

- Village streets
- Urban roadway lighting
- Park lighting
- Courtyard

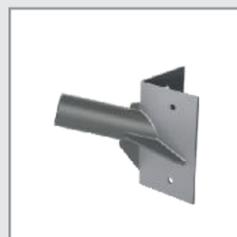

Accessories

±30° Pole Clamp Bracket
SPCC materials with outdoor powder coating. Can be also the wall mount bracket.

Wall mount adaptor

Wall Mount	748	131	301

Mounting Option

Bled

BLED is the newest 360°-surround-lighting bollard. The luminaire has great performance in both direct and indirect lighting. Light comes down from the top mounted LEDs, reflected by the specially designed cone shape reflector. This type of optical design is the best way to reduce glare and to ensure a comfortable visual environment.

Made of Aluminum Alloy.

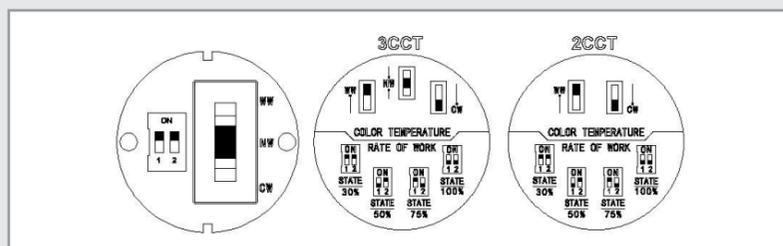

Key features

- 14W/25W, system efficacy up to 130lm/W
- Indirect lighting, visual comfort
- IP66, IK08 rated
- 360° surround lighting
- 0.5/1.0m height optional

Applications

- Gardens
- Pathways
- Sidewalk
- Building entrance

Special features

Available only in 3CCT version.
The power could be set to 30%, 50%, 75% and 100%.
The CCT could be set to Cool White, Natural White and Warm White.

Mounting Option

HIGH BAY

LED high bay light is designed for wide range of industrial and commercial applications (Warehouse, Manufacturing, Cold Storage, Transportation, Sports Facilities, etc.), replacing traditional HID, HPS and fluorescent high bay fixtures. The fixtures offer several industry-standard mounting options for retrofitting. Intelligent LED high bays offer ZigBee and DALI intelligent solutions for better performance, higher efficiency and lower operational costs.

Ekonomik

EKONOMIK is designed with large size but light weight, dia.340mm heat sink helps the body to better dissipate heat and makes sure of a long life span. Multiple beam angles available for different installation heights.

Made of Aluminum Alloy.

Key features

- Equivalent to 400W Metal Halide lamps
- IP65 & IK08 double protection
- Superior temperature stability
- Multiple installation ways available
- Multiple light distributions for different project needs
- Compatible with different intelligent control modes

Applications

- Warehouse
- Industrial facility
- Exhibition center
- Shopping mall
- Gymnasium
- Airport
- Toll station

Accessories

±45° adjustable bracket
SPCC materials with outdoor powdercoating.
Code: BC-H30-01 (100W-200W)
Code: BC-H30-02(240W)

Safety chain
304 stainless steel, available for 0.25m, 1m, 1.5m and 5m long.
Code: SC-H01-01a

Optic lens
High transmittance PC materials, UV test approval.
Code: please refer to Photometry for different beam angle.

Microwave motion sensor
10-15VDC, IP20, Max detect height is 15m.

Daylight sensor
1-10V DC input, IP20 rating, Daylight harvesting function.

Zigbee wireless controller
1-10V DC input, IP20 rating, 1pcs can control 100pcs fixtures.

Mounting Option

Hefajst

HEFAJST highbay light is specially designed for high working temperature industrial ambient, even for up to 65-70°C. Advanced thermal management system, with large dust free heat sink and raised driver box, allows superior heat dissipation, ensuring long life with minimal lumen depreciation.

Made of Aluminum Alloy.

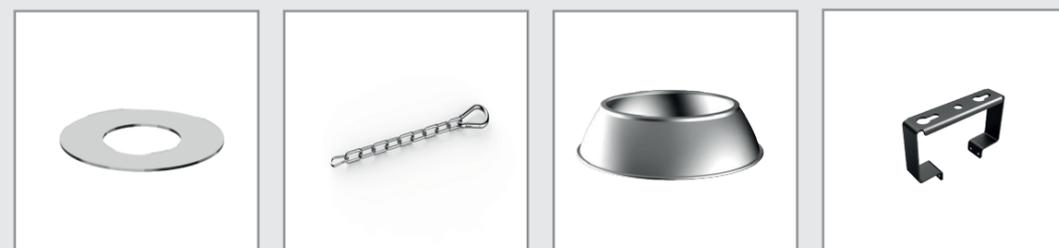

Key features

- Working temperature up to 70°C
- High performance LED design delivering up to 165 lm/W, up to 33000lm
- Four wattages 100W, 120W, 150W, 200W
- Well-sealed with dust tight and waterproof rating of IP65
- Outstanding cooling performance with excellent air cross- ventilation design
- 50,000 hours, long life at L70@70°C
- DALI optional

Applications

- Warehouse
- Industrial facility
- Exhibition center
- Shopping mall
- Gymnasium
- Stations

Arctic

ARCTIC LED highbay is specially designed for food processing applications. The lamp body is arched perfectly which makes not only aesthetic, but also easy to clean. A built-in microwave motion sensor helps save energy and can be adjusted at any time with a remote.

Made of Aluminum Alloy.

The IP69K rating is the highest protection available.

Safe & reliable

ARCTIC LED is free of glass and harmful substances, powder coating ensures corrosion resistance and food safety.

IP69K High protection grade

IP69K rating provides protection against ingress of dust, high temperature and high pressure water. Products with this certification are ideal for use in conditions where equipment must be carefully sanitized.

Key features

- Smooth exterior and no exposed fasteners
- Contains no glass and toxic material for food safety
- Well-sealed with dust tight and waterproof rating of IP69K
- Equipped with Microwave sensor modules and set by remote controller after installation
- The smooth, seamless and downward angled aluminum alloy housing design ensures zero residue remains after cleaning with water jets
- Super high efficacy up to 150 lm/W

Applications

- Food processing plant
- Warehouse
- Factory
- Chemical facilities
- Beverage processing
- Poultry and meat processing
- Pet-food production
- Grain and sugar production
- Any area demanding a well sealed, smooth, high output LED light fixture

Accessories

Optic lens
High transmittance PC materials, UV test approval.

Microwave motion sensor
120-277Vac input, IP65 rating, max detect height is 15m.

LINEAR LIGHTS

LED linear lights are designed for warehouse lighting application. It generates rectangular lighting pattern, perfectly matching warehouse aisles. The fixture provides an intelligent solution, which could save up to 90% of energy. Its specially-designed lens solves glare problem and provides more soft light for workers in the warehouse.

Zigando

Refined with IP66 equal for indoor & outdoor application, it continues to improve integral and customized intelligent control: PIR Sensor, Microwave Motion Sensor, photocell, Zigbee, as well as DALI, emergency function for huge energy saving.

Further more, we could do some customization, such as LED power adjustable, CCT select-able, Anti-glare grille lens, wire guard, etc.

Made of Aluminum Alloy.

Vita

VITA is a strong, compact luminaire for food industry that got the NSF certificate as well. The housing provides IP69K ingress protection (100 bars) along with extreme chemical resistance. And it is designed for heavy hose-down applications or daily sanitation.

Made of Aluminum Alloy.

Key features

- Efficiency up to 135lm/W
- 70W, 120W covers two sizes
- Equivalent to 300W Metal Halide lamps
- Built in power supply
- Pmma cover is optional
- IP66 protection
- IP69K, against water pressure of 100bar(1450psi) and temperature of 85°C

Applications

- Food processing plant
- Warehouse
- Factory
- Chemical facilities
- Beverage processing
- Poultry and meat processing
- Pet-food production
- Grain and sugar production
- Any area demanding a well sealed, smooth, high output LED light fixture

Accessories

Optic lens
High transmittance PMMA materials, UV test approval. Code: Please refer to Photometry for different beam angle.

Safety rope
304 stainless steel, available for 2m long. Code: SL-L19-01

Stark

The STARK Series is designed specifically to provide reliable illumination in industrial locations with high ceilings and high ambient operating temperatures up to 65°C, such as die-cast facilities, foundries, iron forges, steel mills, power generation, chemical plants, pulp and paper plants, blast furnaces, etc. These type of industrial applications often experience drastic temperature fluctuations and require an industrial lighting solution with extremely high operating temperatures.

STARKE's superior thermal management system ensures consistent light levels and exceptional efficacy of 160 lm/W in hot environments. The fixture is IP66 rated and can withstand wash downs and protect against the ingress of dust, oil and other non-corrosive materials.

High ambient operating temperature
Respirator, avoiding moisture

LED driver is installed separately from the chips

Tempered glass protect PC lens from oil accumulation, which ensures high intensity of LED system, and withstand wash downs, easy to clean.

Key features

- High Energy Efficiency 160lm/W
- Universal voltage 120-277V
- IP66 Rating
- 0-10V dimming standard
- Beam Angle 30°/45°/60°/90° for options
- Operating temperature: -30°C to + 65°C
- Triangle heat sink for excellent heat dissipation and dust-proof
- Clamshell driver compartment for easy maintenance
- Versatile suspend mounting
- 5 years warranty

Applications

- Heavy manufacturing plants
- Toll station
- Steelworks
- Refinery
- Hangers
- Exhibition center
- Gymnasium

Accessories

Optic lens
High transmittance PC materials, UV test approval.
Code: please refer to Photometry.

Safety chain
304 stainless steel, available for 0.5m long.

Adjustable ceiling mount bracket
SPCC materials with outdoor powder coating.

Mounting Option

Ella

ELLA is an upgraded linkable model with concise and stylish appearance. Dimmable with indirect lighting optional.

The high efficiency and multiple light distributions make ELLA ideal for multiple applications.

Made of Aluminum Alloy.

Seamless Connection

With Linklite continua, seamless illumination is possible with a flexible continuous roll lens that won't ripple or bow over long lengths. The result is high quality uniform illumination along the entire run length for a truly unique aesthetic.

Key features

- Linkable
- Trunking System with indirect lighting optional
- Anti-UV cover
- Multiple beam angles optional with PMMA lens
- High efficiency up to 140 lm/W
- DALI, 0-10V Dimming optional
- Fast installation and easy maintenance
- Convenient wiring on the side

Applications

- Supermarkets
- Warehouse
- Large-scale indoor places
- Parking garage
- Sports court

Xsara LED

Housing made of glass fiber polycarbonate (optional reinforced polyester, moulded under high pressure (GRP, PE), injected diffuser made of polycarbonate matt OPAL without glare. White painted metal gear with a retaining clip for easy maintenance. Clips: stainless steel clips or polyamide clips (hingeable).

Key features

- Screwless installation
- Lumen packages 1280 - 11061 lumens
- Efficiency up to 91%
- Dimming 1-100% (optional)
- Temperature protection as per EN 61347-2-13 C5e
- Overload, short-circuit protection
- Surge protection 1kV
- Luminaire insulation class 1 (class 2 optional)
- 5 year guarantee

Applications

- Production facilities
- Parking garages
- Warehouse
- Damp or wet locations
- Food processing plants

Accessories

Simple suspension
Suspension standard maximum length 1,5m.

Stainless steel susp. bracket

Quick connection gland

SmartSWITCH HF 5DPF
For automatic on/off switching of luminaires with electronic ballasts and LED drivers.
Bright-out function: luminaire is not switched on if there is adequate brightness.
Delay time, detection range and light value for the bright-out function can be set via 9 dip switches.

BasicDIM Wireless module G2
Wireless controllable with an Android / iOS smart device.
Forms automatically a wireless communication network with up to 250 nodes.

FLOOD LIGHTS

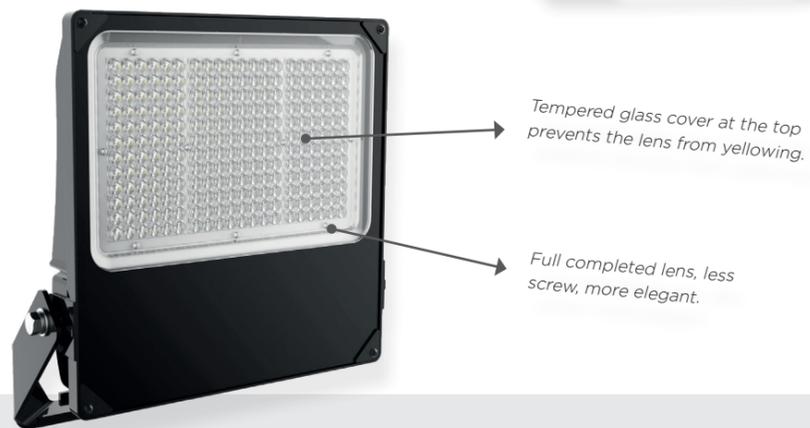

LED flood light is designed for indoor and outdoor applications, including Billboard lighting, Sport lighting, and Parking lots. It is an energy-saving replacement for traditional flood light.

Fly

FLY LED flood light is optimized solution with full power from 30W/50W-300W, made with different size housings, which improve the products cost effectiveness.

Multiple lighting distribution optional, including symmetric and asymmetric beam angles, which will be a great help to win different projects such as; tennis court, badminton court, etc.

Made of Aluminum Alloy.

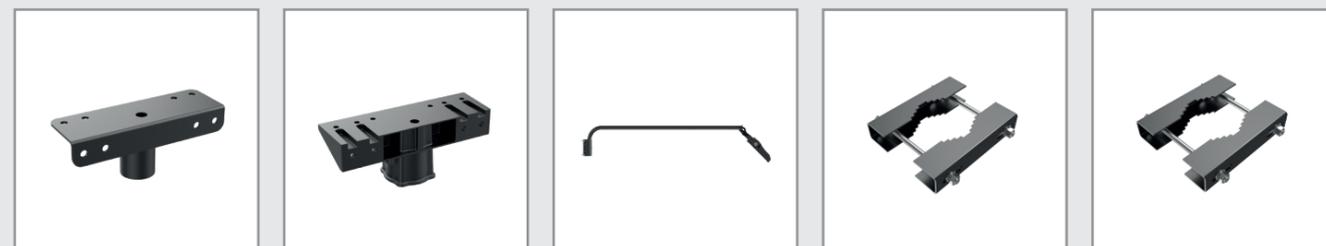

Key features

- Cost-effective but high quality
- Covering the best sellers 50W-100W-150W-200W-300W
- Five different dimensions, to achieve the best cost control for different wattage
- Stream line design, fashion outlook and not easy to accumulate water
- The vent avoid internal fogging and frosting.
- Wide choice of optics to suit more applications: asymmetrical and symmetrical
- 5 years warranty

Applications

- Exhibition center
- Shopping mall
- Stadium
- Accent lighting
- Parking lots
- For recreational sports (tennis courts, basketball courts...)

Mounting Option

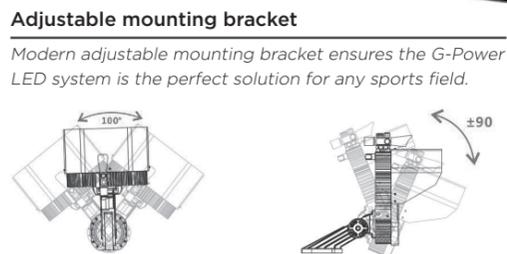

G-Power

G-POWER is a premium 600W floodlight, 100% flicker-free, supports HDTV live broadcasting, ideal for use at the larger soccer field, stadiums, etc. It has a huge advantage for high pole mounting, where it is required precise lighting performance on every position on the ground.

Thanks to Luxar professional optic design, the lighting distribution is available in 10deg. We can bolt a visor to this fixture, to minimize glare. The fixture can be adjusted vertically and horizontally, which helps make sure each spot has enough light so you can achieve a fantastic uniform lighting.

Made of Aluminum Alloy.

Key features

- All into one, cold-forging technology heat sink with good heat dissipation
- High system efficiency 140lm/W, lumen package up to 84000lm
- Precise lighting distribution 10°/30° to achieve excellent zero light pollution
- Bracket with universal angle adjustment by horizontally and vertically
- Fixture body is treated with electrophoresis for strong anti-corrosion characteristics and powder coated paint
- Quick install and efficient maintenance, driver box can be fixed together with the body on the side

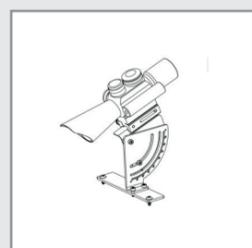

Applications

- Sports court
- Billboard lighting
- Exhibition center
- Shopping mall
- Accent lighting
- Parking lots

Mounting Option

Vader

VADER is a professional high power sports lighting fixture, which has a cooling heatsink structure embedded in the housing, with two LED modules integrated in housing, with powers of up to 1200W.

All the light is focused in a very specific direction to illuminate the desired area. People on the designated area will not see the light source, which makes Vader a high-quality lighting solution. Due to its specific optics it makes a firendly enviroment, which is comfortable and it is suitable for sports fields, airports, ports, etc.

Made of Aluminum Alloy.

Key features

- 1200W 1:1 replace the 2000W HID fixture
- High quality optics ensures exact lighting distribution
- Asymmetric lighting distribution 25x100° and 30x90° optional
- High brightness and also high uniformity lighting performance
- Good heat dissipation, lifetime up to L90B10 100,000hrs
- Driver box as a separate part, flexible installation

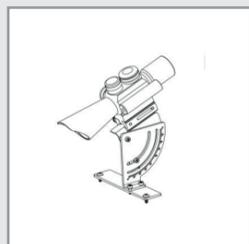

Applications

- Sports court
- Billboard lighting
- Exhibition center
- Shopping mall
- Accent lighting
- Parking lots

Azra

AZRA is designed for landscape lighting, with a variety of beam angles. The lamp has four kinds of light emitting modes, single white, CCT adjustable, RGB and RGBW, as well as four control functions 0-10V dim, DALI dim, Bluetooth control and DMX control, which ensures precise operation for every application.

Made of Aluminum Alloy.

Key features

- Exquisite appearance
- Different angle lenses to choose from
- Minimum angle 3.8°
- Color options: single white, CCT adjustable, RGB, RGBW
- Smart control: 0-10V, DALI, Bluetooth, DMX control
- Excellent heat dissipation, longer lifespan
- Available in DC version

Applications

- Facades appearance
- Square
- Plaza
- Business street
- Park
- Advertising board
- Bridge

Mounting Option

Sportage

SPORTAGE LED sports light is designed for high mounting applications, such as large soccer field, large plazas. 600W/800W/1000W/1200W with small beam angle can be positioned to a certain area, to minimise glare and to control light uniformity. Module could be adjusted vertically and horizontally to get the best light uniformity.

Made of Aluminum Alloy.

Wiring

Housing has pre-mounted electrical connection box with push-in terminals and IP67 stainless steel cable gland, it enables a quick electrical connection to the driver box, also enhance the wiring safety.

Housing

Single piece heatsink made of pressure die-cast aluminum, compact yet robust, surface with outdoor powder-coating, good corrosion-resistance.

Bracket

The large bracket is designed with stiffeners, it is enough to load the luminaire weight firmly and strongly, also able to withstand the wind resistance or snow load and other environmental influences.

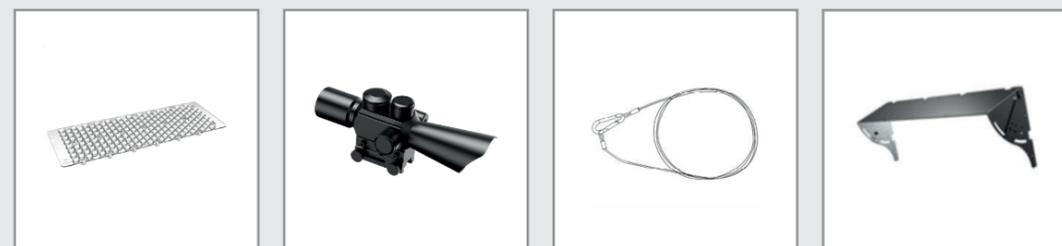

Key features

- Modular design, 600W/800W/1000W/1200W
- Convenient and robust design enables the fixture to be fitted in lots of different outdoor lighting applications
- Multiple optics options F19801, F19802, F19803, F19804, F19805, F19806, F19808 to offer excellent light pollution control
- Excellent anti-corrosion performance
- Efficiency up to 140lm/W, 160lm/W, more energy saving
- Provided with 20kV Build-in Surge Protection Devices

Applications

- Outdoor sports fields
- Square
- Stadium
- Exhibition center
- Soccer field

Accessories

Optic lens
High transmittance PC materials, UV test approval.
Code: please refer to Photometry

Precision Aiming Device
Accurate adjustment of luminaire projected position.

Safety rope
Auxiliary safety device to prevent accidents.

HORTICULTURE LIGHTS

Our clients share their joys, harvests and successful business using the LUXAR LED grow lights and lighting solutions.

Echo

ECHO is a high performance indoor horticulture LED grow light using quantum board technology, it is designed for grow tents and indoor farms applications. With simple and secure design and high safety performance Powerland integrated driver.

Made of Aluminum Alloy.

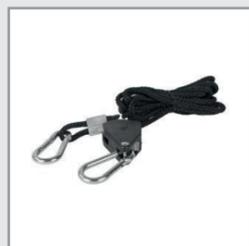

With a simple and secure design, Echo is a high-performance horticultural LED light using quantum board technology. It is also an ideal lighting solution for home growing. The convenient setup makes Echo more popular.

Key features

- First quantum board LED grow light
- Flexible power: 250W & 500W
- Safe and reliable fixtures
- IP65 (dust and watertight)
- 5 years warranty

Accessories

Hanging ropes

Hanging hooks

Applications

- Grow tents
- Indoor farms

Compliance

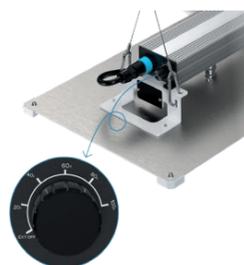

- CE
- ETL
- Low Voltage Directive (LVD)
- Electromagnetic Compatibility Directive (EMC)
- Restriction of Hazardous Substances (RoHS) Directive

Reliable passive-cooled design.

0-10V knob dimming.

Convenient and easy setup.

High intensity and even coverage in a grow tent or room.

Bellis

BELLIS is the ideal LED interlighting system to maximize the yield of crop in growing cycle or to anticipate the cultivation cycle. By placing the LEDs on the canopy of plants directly and focuses growth-stimulating light on the most important part of the crop.

Lamps can be cleaned by using pressurized water because complete electrical circuit is sealed and waterproof.

Made of Aluminum Alloy.

LED interlighting is designed for high vine crops and medical cannabis, which allows to adopt such a mode of lighting that places lamps on the canopy of plants directing and focusing growth-stimulating light on the most important part of the crop.

IP65 Waterproof Rating

IP65 rated makes LED interlighting operate well in greenhouse, indoor or other high humidity environments.

Daisy-chain Design

Bellis with plug-and-play connector, supports up to 20pcs of fixtures connected to one driver. Daisy-chained design helps save installation time and reduce total installation cost in commercial projects.

Wide Illumination Angle

Double-sided lighting design, minimizes light interception and keeps the lower canopy to get optimal and uniform light.

Durable aluminum with less shading

Inverted triangle structure minimizes the shadow on the plant canopy which is caused by the light from the top. Oblique layout of LEDs is conducive to the formation of a suitable light distribution angle which in turn helps the lamps to irradiate the most important parts of crops.

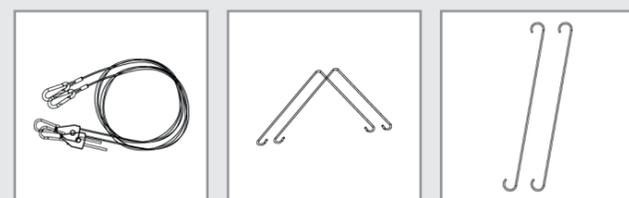

Key features

- Linkable solution
- High efficiency up to 3 μmol/j
- Connect up to 20pcs interlighting modules with just one power connection, and save the total cost of project
- Durable aluminum lightweight profile with low shading
- IP65 waterproof solution
- 5 years warranty

Applications

- High-density crops
- Outdoor/Indoor farms

Accessories

Compliance

BELLIS

BELLIS - Cannabis

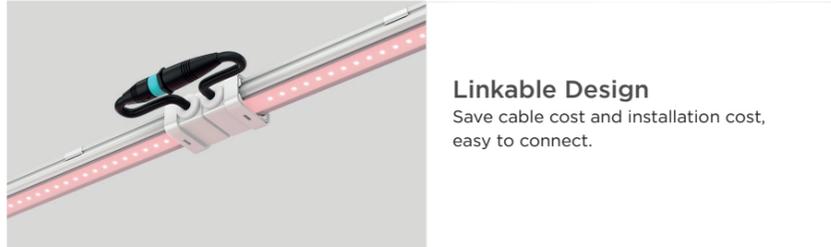

Lexi

Vertical farms and plant factory use LEXI grow lights to grow leafy greens and cannabis clone, deliver the exact nutrients each plant needs with temperature and humidity control to create an optimized climate zone year-round.

It comes with daisy chain design, driver built-in, has very flexible installation and high light uniformity.

Made of Aluminum Alloy.

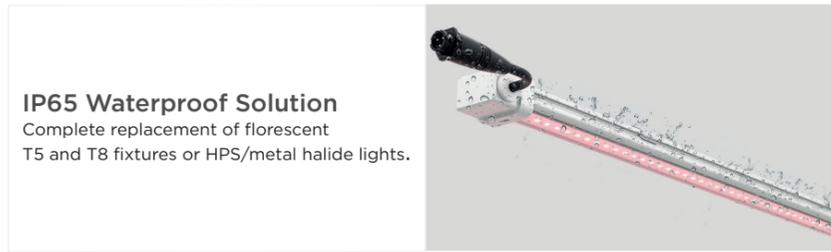

Linkable Design
Save cable cost and installation cost, easy to connect.

Lexi can be used for complete replacement of florescent T5 fixtures or HPS/metal halide lights for inside vegging to grow moms, clones, or any starts in a completely controlled environment.

Simple and stylish,
Ultra-slim design,
Light weight

IP65 Waterproof Solution
Complete replacement of florescent T5 and T8 fixtures or HPS/metal halide lights.

Key features

- Competitive price to support your project
- Thin profile, light weight can save shipping cost
- Best full spectrum performance improve plants grow
- IP65 waterproof solution
- Built-in driver, easy for installation and transportation
- 5 years warranty

Maron

MARON is a high-performance, full-cycle lighting solution for commercial horticulture cultivation, with the power to scale from vegetative growth to higher light intensities in bloom.

Made of Aluminum Alloy.

LED	BIN	CRI > 70	IP65	⚡
DALI 0-10 V	DIM 1-100 %	CE	♻️	

Providing 1.2 x 1.2 m for both vegetative and flower, our Fold 6 or 8 LED grow lights for indoor plants supports all stages of plants' growing life cycle, whether used in a tent for home growers or chained together with up to 512 pcs fixtures in a large commercial operation.

Compact Design
Slim design and foldable 180 degrees, making it small, compact and very easy to install.

Top Quality Configuration
Applied with top quality Samsung full spectrum white leds + Osram 660nm red light.

Key features

- Higher efficiency up to 2.8 μmol/J
- Optional spectrums for client to chose
- External driver, easy for maintainance and good for heat dissipation
- Foldable design easy installation and maintenance
- Two different installation ways to better fit in various growing environment
- Match with Trolmaster control system
- 5 years warranty

Raiden

RAIDEN innovates the design with built-in driver and 8 light bars, makes it easy installation. It is designed for commercial horticulture cultivation, with the power to scale from vegetative growth to bloom.

Made of Aluminum Alloy.

LED	BIN	CRI > 70	IP65	
DALI 0-10 V	DIM 1-100 %	CE		

Even Coverage
The max 800W helps plant grow at a consistent height & into big buds, maximizing grow space for better harvest.

Engineered with versatility in mind, RAIDEN is the perfectly close-access grow light for high DLI crops and is essential for any commercial growing and vertical farming operations.

Linkable Design
Complete your existing operation with its own daisy chain power supply.

OFFICE LIGHTS

Enhance staff's performance and productivity with right LED lighting fixtures. Office light fixtures which caters to your needs and can provide the right amount of illumination for you.

Daisy

The Daisy is a new linkable design light. Adopt high lumen efficiency SMD LED and aluminum materials. Pendant, surface mounted, wall mounted installation available. Up and down light effect of wall mounted and pendant installation. Interchangeable CCT, DALI/0-10V dimming for options. Tridonic DALI driver available.

Key features

- Modular design with convenient replacement
- High lumen efficiency, 110lm/w
- Anti-glare design, UGR<19
- DALI, 0-10V dimming for options
- With emergency function available
- Up and down light effect for wall mount and pendant installation
- Multiple installation: Pendant/surface mounted/wall mounted/recessed/Track
- With Corner/ Cross/ Straight/ T shaped connectors for multiple shape design

Accessories

- Surface mouted accessories
- Linkable Connection accessories
- Suspension accessories 1000mm lenght
- Wall mounted accessories
- Recessed installation accessories
- Connection box for pendant installation with 1000mm cable and 2pcs 1000mm suspending cable

Applications

- Office
- Workshop
- Utility rooms
- Garages

- 0-10V / DALI Connection box for pendant installation with 1000mm cable and 2pcs 1000mm suspending cable
- 3 circuit adapter with 280mm cable

Mounting Option

Zoya A/B

Free-standing luminaires can be placed easily anywhere in the room, providing direct and indirect light wherever the user needs it. This ZOYA free-standing luminaire is composed of three parts: Linear lamp body, lamp pole and U shape lamp base. ZOYA/A is for floor standing, ZOYA/B is for desk installation. Direct and indirect optic design, UGR<16, up 75% & down 25% lighting, up to 125lm/W high efficiency, it can ensure a more uniform and more comfortable lighting effect. Besides, for direct lighting, it has Symmetrical polarized light and forward polarized light options, which could meet more lighting demands. Lamp Pole with: Plug and play, touchable 0-10V dimmer, light sensor, PIR sensor module and USB connector. The functions of the luminaire are triggered by pressing a button and then it's fully automatic, the lighting control modules are interchangeable, which is very suitable for modern office environments.

Linear design freestanding luminaire

Direct and indirect lighting with invisible LED chips to achieve **UGR<16** and offer comfortable light effect.

Key features

- Easy for assembly and maintenance
- ZOYA/A floor standing, ZOYA/B desk installation
- Symmetrical polarized light and forward polarized light options
- High lighting efficiency, 125lm/W
- Precise optical design: UGR<16, up 75% & down 25% lighting
- Plug and play, light sensor, PIR sensor, USB charging functions
- Touchable 0-10V dimming way

Applications

- Office
- Meeting room
- Hotel

Zoya C/D

Free-standing luminaires can be placed easily anywhere in the room, providing direct and indirect light wherever the user needs it. This ZOYA smart design free-standing luminaire is composed of three parts: Linear lamp body, lamp pole and U shape lamp base. ZOYA/C is for floor standing, ZOYA/D is for desk installation. Direct and indirect optic design, UGR<16, up 80% & down 20% lighting, up to 130lm/W high efficiency, it can ensure a more uniform and more comfortable lighting effect. Besides, for direct lighting, it has Symmetrical polarized light and forward polarized light options, which could meet more lighting demands. Lamp Pole with Casambi Bluetooth wireless control module can be controlled wirelessly, through smart phone and tablet to realize Tunable White function or brightness adjustment, which is very suitable for modern office environments.

Direct and indirect lighting with invisible LED chips to achieve **UGR<16** and offer comfortable light effect.

Key features

- Tunable White (Brightness and CCT adjustment) or brightness adjustment
- Easy for assembly and maintenance
- Symmetrical polarized light and forward polarized light options
- High lighting efficiency, 130lm/W
- Precise optical design: UGR<16, up 80% & down 20% lighting
- Plug and play, convenient for different position
- Casambi Bluetooth wireless control
- Tridonic DALI dimming

Otta

This OTTA freestanding lamp is composed of three parts: flat lamp body, lamp pole and lamp base. With a precise optical design (UGR<14, up 75% & down 25% lighting), it can ensure a more uniform and more comfortable lighting effect. Lamp Pole with: Plug, touchable 0-10V dimmer, light sensor, PIR sensor module and USB connector. The functions of the luminaire is triggered by pressing a button and then it's fully automatic, the lighting control modules are interchangeable, which is very suitable for modern office environments.

Technical Data

Key features

- Easy for assembly and maintenance
- Precise optical design: UGR<14, up 75% & down 25% lighting
- Lighting sensor and PIR sensor mode interchangeable
- Plug and play, convenient for different position
- Touchable 0-10V dimming way
- USB charging function type and Non-USB type are optional

Applications

- Office
- Meeting room
- Hotel

Accessories and Mounting Option

Ettela

The flat, ready-to-install LED panel has been equipped with high-quality LEDs. The light guide and the matching diffuser material ensure an extremely homogeneous ceiling effect. Thanks to UGR < 22, the Ettela edge-lit panel is ideal for use in offices. With the optional accessories, both the pendant and the surface-mounted version are quick and easy to install.

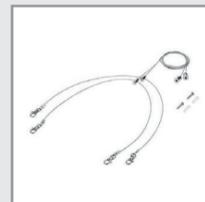

Key features

- For suspended ceilings with grid dimension of 600 mm
- With pre-installed connection cable and integrated plug
- Efficiency up to 120 lm/W
- UGR < 22
- Color temperatures 3000 K, 4000 K and 6500 K
- Diffuser material Standard article: Polystyrene (PS)
- Lifetime: 30,000 hours
- 5 years guarantee

Accessories

Surface mount kit
Aluminum frame for easy surface mounting

Suspension kit
Steel wire system for suspended mounting

Monza

New luminaire of modern design, based on LED lamps, dedicated for ceiling or suspended mounting. Compact and adjustable Monza is a great solution for both small and bigger spaces, perfect for offices, corridors and many other. The LED luminaires uses diodes of reputable manufacturers. High quality power supply provides high power factor.

Key features

Materials: Powder painted body made of steel sheets and durable polycarbonate
Installation: Ceiling mounted, suspended
Application: offices, corridors
Category of luminaire: indoor luminaire
Power: 230 V

PLAFONDS

Plafonds - in all its forms - most of the time play a secondary role of attention but attach great importance for the general lighting of a room. Innovative plafond fixture solutions with challenging design put your room in best shape. Luxar plafonds have a low profile design which is providing a discreet, robust and stylish look.

Palus

Palus bulkhead adopts Die-casting aluminum body and 94-V0 fire-rated PC cover. This fixture provides 3-CCT system selectable with internal switch. These lights are a perfect answer to complete your outdoor look.

3-CCT in 1 Lamp
A side switch allows for an instant transition of color temperature.

Key features

- Round fixture, with 94-V0 PC cover
- Long lifetime of 50,000 hours
- CCT: 3000K 4000K 5000K 5700K
- Built-in LED driver
- Triac dimmable and color changeable
- High ingress protection rating: IP65, IK10, Class I
- Ideal replacement for traditional Halogen or fluorescent wall lights

Applications

- Office
- Public Areas
- Stairway
- Lobby
- Reception
- Corridors

WALL LIGHTS

Our Modern LED wall lights have low profile, light weight, and are designed for long life usage with no maintenance and great performance.

Dion

Dion has ultra-thin design which looks like a power bank. It adopted SMD light source in both ends, designed for wallwashing lighting effect, so it can do higher and further lighting. For material part, it adopted ADC12 Aluminum which offers a great heat dissipation. Besides, it is an up and down lighting design which can achieve a better atmosphere. IP65 waterproof will suit to a wider application area.

Key features	Applications

Dax light engine

LED replacement for downlight with compact fluorescent lamps. Complete ready2apply solution comprising of module, driver, reflector and trim ring.

Key features

- Approved emergency solution with EM converterLED
- Optional reflector solution with 60° and 90°
- High system efficacy up to 111 lm/W
- Small color tolerance MacAdam 4
- Fit for ceiling cutout 100, 150 and 200 mm
- Tool-free assembly, simple as push and rotate
- Spring clip pre-assembled
- IP20 protection level
- Nominal lifetime 50,000 h (L70/B50)
- 5 years guarantee

Driver Dax SNC

- LED replacement for downlight with compact fluorescent lamps
- Complete ready2apply solution comprising module, driver, reflector and trim ring
- Tool-free assembly, simple as push and rotate
- Typ. luminous flux category: 1,000/2,000/3,000 lm
- Approved emergency solution with EM converterLED
- Nominal lifetime of 50,000 h (L70/B50)
- 5 years guarantee

LED STRIPS

LED strips with high efficacy and excellent quality of light for wide range of applications.

Flex essence

- Dimmable 24 V constant voltage LED flextape (SELV)
- Ideal for various decorative lighting applications: facade accent lighting, ceiling integration, cove lighting and for aluminum extrusions

Key features

- Luminous flux range of 600, 1,200, 1,800 and 2,500 lm/m
- Color temperature 2,700, 3,000, 4,000 and 6,500 K with SDCM 3
- Useful luminous flux 2,740 lm/m at tp = 25 °C
- Efficacy of the LED module 138 lm/W at tp = 25 °C
- High design freedom due to 5 cm cut-options
- Long lifetime: 60,000 hours
- 5 years guarantee

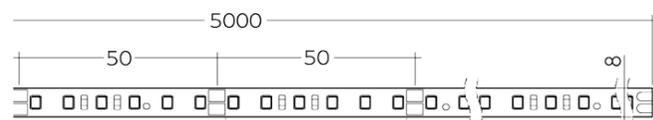

Applications

- Facade accent lighting
- Ceiling integration
- Cove lighting
- Aluminum extrusions

Technical Data

DC supply voltage	24 V	Correlated Color Temperature	2,700K, 3,000K, 4,000K, 6500K
Beam Characteristic	120°	Color Rendering Index	Ra80

Dimensions

Cutting position for cutting the tape to length.

Lifespan and Warranty

Ambient temperature range	-25 to +45 °C
Lifetime of LED	60.000hrs-L70
Warranty	5 years

LCA 24V

DIMMABLE

- Dimmable 24 V constant voltage LED driver for flexible constant voltage LED strips
- One4all interface for linear and stretch compact drivers, basicDIM Wireless and ready2mains dimming interface for basicDIM Wireless stretch compact drivers
- Dimming range 1 to 100 %
- Suitable for emergency escape lighting systems acc. to EN 50172
- Nominal lifetime up to 50,000 h
- 5 years guarantee

Interfaces

- one4all (DALI DT 6, DSI, switchDIM, corridorFUNCTION)
- ready2mains (configuration and dimming via mains)
- basicDIM Wireless dimming interface
- Terminal blocks: 45° push terminals

Applications

- Facade accent lighting
- Ceiling integration
- Cove lighting

Flex excite

- Dimmable 48 V constant voltage LED flextape (SELV)
- Ideal for application on aluminum extrusions but also for various decorative lighting applications such as cove lighting, facade accent lighting etc.

Key features

- Luminous flux range of 600, 1,200, 1,800 and 2,500 lm/m
- Color temperature 2,700, 3,000, 4,000 and 6,500 K with SDCM 3
- Useful luminous flux 2,630 lm/m at tp = 25 °C
- Efficacy of the LED module 152 lm/W at tp = 25 °C
- High design freedom due to 6.25 cm cut-options
- Long lifetime: 60,000 hours
- 5 years guarantee

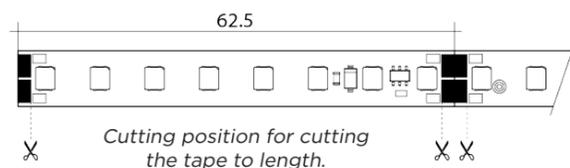

Applications

- Facade accent lighting
- Ceiling integration
- Cove lighting
- Aluminum extrusions

CONTROLLERS & OPERATOR PANELS

A wide range of products for various applications in building automation. These application-centric products often combine an entire set of different protocols and functions in one single device.

Discover operator panel devices with a modern, minimalistic look that fits any interior design.

LDALI ME201/204

L-DALI Controllers are multifunctional devices combining constant light control, sunblind control and gateway functions between DALI (Digital Addressable Lighting Interface) and BACnet or Modbus systems. With Alarming, Scheduling, Trending and e-mail notification (AST™) the L-DALI Controller is a perfect solution for DALI lighting systems and for a smooth DALI integration into BACnet or Modbus networks.

Key features

- Integrated DALI bus power supply
- Built-in web server for device configuration
- Integrated Constant Light Controller
- Integrated Sunblind Controller
- Support DALI color control (DT8 tunable white & full color control)
- Supports lamp burn-in mode
- Supports periodic testing of DALI emergency lights
- Supports BACnet/ IP or BACnet MS/ TP
- Alarming, Scheduling, and Trending (AST™) locally or embedded in L-WEB (building management)
- Node.js support for easy IoT integration (e.g. Google calendar, Alexa & friends, multimedia equipment,...)
- Event-driven e-mail notification
- Visualization of customized graphical pages through LWEB-900 (Building Management), LWEB-803 (Monitoring and Control), or LWEB-802 (Web Browser)
- Built-in OPC XML-DA and OPC UA server
- Modbus TCP (Master or Slave)
- Supports SMI (Standard Motor Interface) through LSMI-804
- Connection to EnOcean wireless devices via LENO-80x Interface
- Supports WLAN through LWLAN-800 Interface
- Supports LTE through LTE-800 Interface
- Modbus RTU/ASCII for 5 devices (LIC-MOD5 required)

Technical Data

Model No.	LDALI-ME201-U	LDALI-ME204-U
Power supply	85-240 V AC, 50/ 60 Hz, typ. 7.5 W	85-240 V AC, 50/ 60 Hz
DALI channels	1	4
Integrated DALI bus power supply (per channel)	16 V DC 230 mA guaranteed supply current 250 mA max. supply current	16 V DC 116 mA guaranteed supply current 125 mA max. supply current
Dimensions (mm)	159 x 100 x 75 (L x W x H), DIM035	
Installation	DIN rail mounting following DIN 43880, top hat rail EN 50022	
Operating conditions	0 °C to 40 °C, 10 - 90 % RH, noncondensing, degree of protection: IP40, IP20 (terminals)	
Certificates	DALI-2	
Interfaces	<ul style="list-style-type: none"> • 2 x Ethernet (100Base-T): OPC XML-DA, OPC UA, BACnet/ IP*, Modbus TCP, HTTP, FTP, SSH, HTTPS, Firewall, VNC, SNMP • 1 x RS-485 (ANSI TIA/ EIA-485): BACnet MS/ TP* or Modbus RTU/ASCII (Master or Slave)** • 2 x USB-A: WLAN (needs LWLAN-800), EnOcean (needs LENO-80x), SMI (needs LSMI-804), LTE (needs LTE-800) <p>* Either BACnet/ IP or BACnet MS/ TP ** Requires LIC-MOD5 software license</p>	
Tools	L-INX Configurator and configuration via web interface	

LDALI-MS2/MS2-BT
L-DALI Multi-Sensor

LDALI-MS2-BT/LDALI-MS4-BT can transmit all supported beacon types for indoor localization.

On the back of the sensor, there is a connector for three digital inputs.

LDALI-BM2
L-DALI Pushbutton Coupler

Additional 4 contacts for signal lights in pushbuttons, powered over DALI bus line.

LDALI-RM8
L-DALI Relay Module

Digital inputs forcing the corresponding relays to switch on (override, status can be queried)

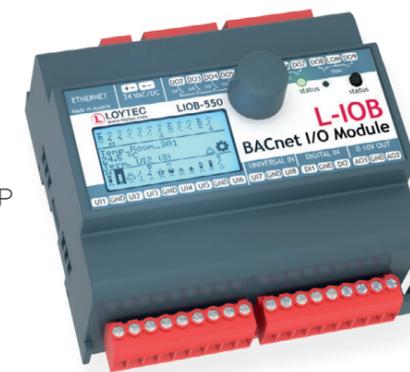

LDALI-PD1
L-DALI Phase-Cut Dimmer Module

LDALI-PWM4-x
L-DALI PWM module

*Please contact us for more specific information.

LIOB-55x

The LIOB-55x Modules communicate over Ethernet/ IP in the BACnet/ IP network. They adhere to the BACnet Building Controller Profile (B-BC) and either expose their I/ O data points through BACnet server objects or actively fetch them from a BACnet server via BACnet client maps.

The LIOB-55x Modules are equipped with a web interface to query the device status and display or change each data point of the module. In addition to the BACnet object interface, the I/ O data points are exposed by the integrated OPC server providing SSL encrypted web services (OPC XML-DA) or UA Secure Conversation (OPC UA). The local display can be accessed via VNC.

Key features

- I/ O module with physical inputs and outputs
- BACnet objects for integration in BACnet/ IP channels
- Integrated web server for device configuration and monitoring data points
- Supports BACnet Alarming, Scheduling, and Trending
- Built-in OPC XML-DA and OPC UA server
- Math objects to execute mathematical operations on data points

LROC 400

The L-ROC Room Controller LROC-400 for the European 868 MHz band provides the basis for a revolutionary room automation system based on IP, which seamlessly integrates with native BACnet/IP networks and LonMark Systems at the controller level.

Together with the L-STUDIO software, flexible room solutions can be created and adapted to changing requirements during the project with little effort. Integral parts of the L-ROC System are a web-based room operation via an LWEB-802/803 dashboard and the automatic generation of graphics for the L-VIS Touch Panel for local operation.

Key features

- Room controller for up to 8 or 16 room segments
- Integrated AST™ functions (Alarming, Scheduling, and Trending) for each room segment
- Node.js support for easy IoT integration (e.g. Google calendar, Alexa & friends, multimedia equipment,...)
- Event-driven e-mail notification
- Stores customized graphical pages
- Visualization of customized graphical pages through LWEB-900 (Building Management), LWEB-803 (Monitoring and Control), or LWEB-802 (Web Browser)
- Supports BACnet MS/ TP and BACnet/ IP
- BACnet Client Function (Write Property, Read Property, COV Subscription)
- BACnet Client Configuration with configuration tool (scan and EDE import)
- Integrated BACnet/ IP to BACnet MS/ TP Router including BBMD as well as Slave-Proxy functionality
- Connection to KNXnet/ IP and KNX TP1
- M-Bus Master according to EN 13757-3, connection via optional M-Bus Converter (L-MBUS20 or L-MBUS80)
- Modbus TCP and Modbus RTU/ASCII (Master or Slave)
- Integrated web server for device configuration and monitoring data points
- DALI integration of up to 64 DALI lamps (depending on the model)
- Connection to EnOcean wireless devices (built-in EnOcean interface with external antenna for Europe, 868 MHz) or via LENO-80x (LROC-402 only)
- Supports WLAN through LWLAN-800 Interface
- Integration of actuators via MP-Bus (expandable via LMPBUS-804)
- Supports SMI (Standard Motor Interface): LROC-400, LROC-401: built-in (expandable via LSMI-80x) LROC-402: needs LSMI-804
- Supports LTE through LTE-800 Interface
- Stores user-defined project documentation

Technical Data

Model No.	LROC-400	LROC-401	LROC-402
Power supply	24 V DC 310 % or 85 - 240 V AC, 50 - 60 Hz (do not connect 24 V DC if SMI or DALI are used)		
Dimensions (mm)	340 x 144 x 70 (L x W x H), DIM047		
Interfaces	<ul style="list-style-type: none"> • 2 x Ethernet (100Base-T): • Web services (OPC XML-DA, OPC UA), LonMark IP-852, BACnet/ IP*, LIOB-IP, KNXnet/ IP, • Modbus TCP (Master or Slave), HTTP, FTP, SSH, HTTPS, Firewall, VNC, SNMP • 1 x L-STAT (Room Operator Panel) • 1 x MP-Bus (actuator) • 1 x KNX TP1 • 2 x USB-A

L-STAT Room Operator Panel

The L-STAT is a room operator panel device with a modern, minimalistic look that fits any interior design. It is directly connected to a LOYTEC controller with a Modbus interface such as LIOB-AIR or L-ROC. The L-STAT is available in three different hardware versions, with six different button layouts, and two front cover color options (36 models in total).

Key features

- Easy integration into LOYTEC controllers such as L-INX, L-ROC or LIOB-AIR
- NFC (Near Field Communication) with content configurable via network
- Temperature sensor
- Humidity sensor

Individual front cover printing on request to match clients room design or corporate identity

LVIS 3ME 7/12/15

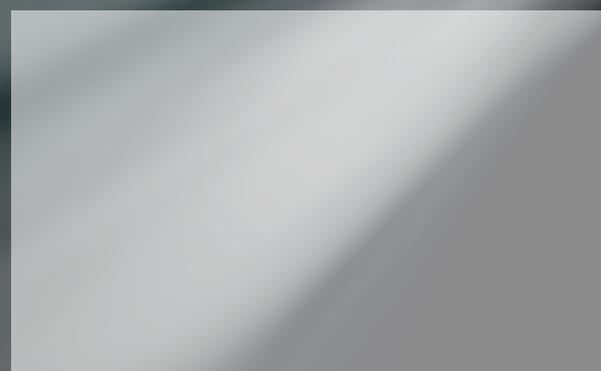

L-VIS Touch Panels for LonMark, BACnet, and Modbus networks are ideally suited for visualization and operation of various applications in building automation. L-VIS Touch Panels visualize building systems, can be used as room operator panels, in hospital operation or isolation rooms, conference and reception areas. L-VIS impresses with its timeless design, harmonic integration into modern and historical architecture, and with its extremely user friendly concept. The shallow installation depth and low thermal power loss allow mounting in almost any location.

Frameless glass front and capacitive touch (also available with Anodized aluminum front frame)

Available in three different screen sizes: 7", 12.1", 15"
